UNIVERSITY OF MARYLAND,

HON. SEVERN TEACKLE WALLIS, LL.D., Provost.

FACULTY OF PHYSIC:

GEO. W. MILTENBERGER, M. D.,
Emeritus Professor of Obstetrics and Honorary President of the Faculty.

SAMUEL C. CHEW, M. D.,
Professor of Principles and Practice of Medicine and Hygiene.

FRANK DONALDSON, M. D.,
Emeritus Clinical Professor of Diseases of the Throat and Chest.

WILLIAM T. HOWARD, M. D.,
Professor of Diseases of Women and Children, and Clinical Medicine.

JULIAN J. CHISOLM, M. D.,
Professor of Eye and Ear Diseases.

FRANCIS T. MILES, M. D.,
Professor of Physiology, and Clinical Professor of Diseases of Nervous System.

LOUIS McLANE TIFFANY, M. D.,
Professor of Surgery.

J. EDWIN MICHAEL, M. D.,
Professor of Obstetrics.

ISAAC EDMONDSON ATKINSON, M. D.,
Professor of Materia Medica and Therapeutics, Clinical Medicine and Dermatology.

FRED. J. S. GORGAS, M. D., D.D.S.,
Professor of Principles of Dental Science, Dental Surgery and Dental Mechanism.

JAMES H. HARRIS, M. D., D.D.S.,
Professor of Operative and Clinical Dentistry.

R. DORSEY COALE, PH.D.,
Professor of Chemistry and Toxicology.

JOHN NOLAND MACKENZIE, M. D.,
Clinical Professor of Diseases of the Throat and Nose.

RANDOLPH WINSLOW, M. D.,
Professor of Anatomy and Clinical Surgery.

THE Eighty-sixth Annual Session will begin on October 1st, 1892, and will terminate in April, 1893. The Didactic Lectures are illustrated by laboratory and clinical instruction. Ward and Amphitheatre Clinics are held daily throughout the year. They embrace General Medicine and Surgery, Diseases of Women and Children, of the Eye and Ear, of the Nervous System, of the Skin, of the Chest, and of the Throat and Nose. Work in the Chemical and Histological Laboratories is obligatory with those who begin their first course in Medicine with the session of 1891–92 and thereafter, and who must follow a three-years' Graded Course. Every student, before graduating, has personal experience in Practical Obstetrics. Ample provision for dissection is made.

For further information, apply to

I. E. ATKINSON, M. D., Dean,

No. 605 Cathedral St., Baltimore

DENTAL DEPARTMENT.

This department offers the best modern facilities for the study of Dentistry. "Dental Infirmary and Laboratory Building" is excellent in its completeness, its adability and its situation. Its clinical advantages are remarkable.

For further information, apply to **F. J. S. GORGAS, M. D., D. D. S.**, Dean of Faculty of Dentistry, **845 North Eutaw Street, Baltimore.**

INTRODUCTORY.

It is with pleasure that the publishers present this, the fourth volume of the WEST VIRGINIA STATE GAZETTEER AND BUSINESS DIRECTORY, to the public, feeling that in this edition they have given the most thorough and exhaustive Gazetteer of the State that could be furnished, a task, the least considerate will acknowledge, requiring a large exercise of care, energy and perseverance, and no small outlay of cash. As in the past, so this year the aim constantly held in view has been to make the Gazetteer accurate and concise, by securing the insertion of every item of information the public have a right to expect, and by using constant watchfulness during the printing and compilation, as well as to produce a handsome, durable and legible volume. The miscellaneous portion —pages 29 to 44—has been corrected to date from late official sources and will be found especially valuable for reference, embracing as it does a descriptive sketch of West Virginia, its resources and development, lists of State Officers, State Government, the State Judiciary, State Institutions and Officers, State Boards, Representatives in Congress, County Seats and Officers, a Bankers' Directory, etc., etc. This is followed by a list of all the postoffices in the State, with a description of the geographical position of each, the population of each place, leading business interests, nearest accessible shipping point when off a railroad, nearest banking point and other useful facts regarding it. Succeeding this is an alphabetically arranged list of all persons engaged in business there, and the whole is supplemented by a voluminous Classified Business Directory comprising lists of all trades, professions and pursuits, with name and postoffice address, compiled and arranged under the heading to which each belongs. The rapid extension of business, mining and manufacturing enterprises, and the general progress everywhere exhibited, has rendered a very large individual canvass necessary ; the sketches have been carefully re-written and much additional information added, making a consequent larger increase in the labor and cost of compilation and a corresponding growth in the value of the work, both as a medium for advertising and for reference.

The publishers gratefully acknowledge the patronage and support extended them by the business men of the State, and the generous assistance and intelligent information given by those who kindly assisted in collecting the information required in the preparation of this volume ; and in conclusion would say that the fifth volume will be issued in due time, and that nothing shall be wanting on their part to maintain the high standard already attained.

GENERAL INDEX.

Alphabetical Directory 59–418
Banks and Bankers 43–44
Classified Business Directory (Foreign) 601–609
Classified Business Directory (West Virginia) 419–590
Congressional Districts 35
County Seats and Officers 42
Courts of West Virginia 36–39
Cumberland, Md., Department 593–599
Descriptive Sketch of West Virginia 29–33
Express Companies 58
Foreign Classified Business Directory 601–609
Gazetteer and Alphabetical Directory 59–418
Government of West Virginia 34–36
Index to Advertisements, arranged by Towns 16–20
Index to Advertisements, classified according to Business 20–27
Judiciary 36–39
Members of Congress from West Virginia 35
Officers of State Institutions 39–41
Patrons outside of the State, classified 601–609
Population of West Virginia 29
Railroads of West Virginia 58
State Boards 34–35
State Government 34–36
State Institutions 39–41
State Judiciary 36–39
State Militia 34

STATE CAPITOL, CHARLESTON, W. VA.

WEST VIRGINIA'S

RESOURCES AND DEVELOPMENT

By Governor A. B. Fleming.

Until within the past few years little was known by the outside world of the marvelous natural resources of West Virginia. The great avenues of commerce and travel lay along the northern and southern borders of the triangular-shaped State, and population and trade swept heedlessly by, unaware of the capabilities of her soil, the extent and value of her forests, or the inexhaustible wealth of her vast mineral deposits.

While this is not now true to the extent it was a score of years ago, while capital and industry have recently penetrated even to the heart of the State and are now developing her hidden riches with tremendous energy, the vast possibilities of the State are as yet scarcely realized, her richest mineral regions are practically unexplored, her great stores of iron and coal are comparatively untouched, and of the 16,640,000 acres of land in the State, probably 8,000,000 acres are still in the original forest. This is a State whose eastern border is only 81 miles by rail from Baltimore, 179 miles from Philadelphia, 286 from New York; whose western border is 7 hours distant from Cincinnati, 14 hours from Chicago, and whose products can be put into Cincinnati in 20 hours by river, Pittsburg in 30 hours, New Orleans in 5 days.

It would, in truth, be impossible to exaggerate the unequaled opportunities which West Virginia presents, therefore, to capital and every kind of manufacturing and commercial enterprise. I would emphasize this fact. No other State in the Union, in my judgment, possesses to-day such cheap and abundant raw materials or offers such conspicuous opportunities for safe and profitable investment of capital.

I cannot, in the limited time at my disposal for the task, give more than a general view of the present development and material advancement of the State, and touch upon some of her chief sources of wealth, present and prospective.

Below I give in tabulated form such data as I have at hand bearing directly upon the growth of the State in the past decade, and which clearly evidence the remarkable progress made. The figures relating to population and wealth are taken from United States census reports; those relating to tax values and railroad mileage are from State reports. Not having before me the census reports of 1880 touching farm animals and farm products, the statistics under that head show a comparison between 1870 and 1888, the first as reported in the ninth census, the latter as given by the Secretary of Agriculture in his report for 1889.

POPULATION, RAILROAD MILEAGE, ASSESSED PROPERTY AND TRUE WEALTH.

	1880.	1890.	Increase per cent.
Population	618,000	762,794	23⅜
Assessed value of property	$147,011,740	$187,165,344	27¼
Wealth, true value	307,000,000	*462,000,000	30
Railroad mileage	691	1,343	95

*Estimated.

FARM ANIMALS AND FARM PRODUCTS.

	1870.	1888.	Increase.
Horses	90,479	146,667	
Mules	2,139	6,867	
Cows	104,434	179,979	
Oxen and other cattle	197,246	286,538	33 per cent.
Sheep	552,327	508,654	
Hogs	268,031	486,226	
Corn, bushels	8,197,865	16,149,000	
Wheat, bushels	2,483,543	2,899,000	
Oats, bushels	2,413,489	2,495,000	65 per cent.
Potatoes, bushels	1,053,507	1,849,000	
Hay, tons	224,164	397,345	77 per cent.
Tobacco, pounds	2,046,452	4,496,000	120 per cent.

RAILROADS.

It is of interest to note the increase in railroad mileage within the last ten years, as shown above, and to briefly consider the tremendous momentum which this must give to the State's progress during the next decade. The figures mean more than a mere doubling of West Virginia's transportation facilities. The mileage of 1880 was made up almost wholly of the Baltimore & Ohio and the Chesapeake & Ohio railroads—the first an east and west line running along the extreme northern border of the State; the latter an east and west line traversing the southern border. The policy of both roads was to handle through business at the expense of local traffic, a policy which each has since wisely abandoned under new management.

The newly built railroads are chiefly cross lines penetrating the interior of the State, and constructed primarily to reach and throw open to capital those sections of the State particularly rich in coal and iron deposits and varied agricultural capabilities. The traffic developed by these roads within a year or two is often surprising. The coal and coke shipments, for instance, over the West Virginia Central railroad since the beginning of the present year alone aggregated in excess of 1,100,000 tons; the Monongahela River railroad (a part of the Camden system), which was put in operation only last spring, in its movement of coal and coke from two collieries near Fairmont, averages 100 cars daily, besides having a general freight and passenger traffic far exceeding the expectations of its projectors.

The development of our railroad interests is still going on with increased activity and in the same general direction. Before the close of another twelvemonth the Norfolk & Western will have pushed its New River division through a virgin territory to the Ohio river, practically placing the famous Elkhorn coal region 500 miles nearer the markets of Chicago and the northwest. Senator Camden is rapidly extending from Fairmont, the lines of his railroad system through a rich belt of country toward the south, and will soon tap the Chesapeake & Ohio railroad. Senator Davis and his associates are extending the West Virginia Central as rapidly as possible south toward the iron fields of the State, and north through the great coal beds of the Monongahela river to a connection with the Pennsylvania Railroad system at the State line. The impetus which these lines building and the new roads constructed will give to the growth and material advancement of the State is incomputable.

COAL AND COKE PRODUCTION.

Perhaps the industry that will be most advanced is that of coal and coke production. Rapid as has been the expansion of this industry in West Virginia, it is manifestly but in its incipiency. The great Appalachian coal measures are known to embrace the entire State, with the exception of the lower Potomac counties. One-thirteenth of the aggregate coal area of the country is contained within the borders of West Virginia, and taking into account the greater thickness of her workable seams, the State easily outranks all others in the extent and value of her coal beds. Her coal area is computed at 16,000 square miles. A great portion of it is easily and cheaply mined, all of it is of the highest grade of excellence, much of it lies in close proximity to vast deposits of iron ore and limestone, and is admirably located in point of accessibility to the best markets.

In 1880 the State produced 1,568,000 short tons of coal, ranking seventh among the coal-producing States of the Union—Pennsylvania, Illinois, Ohio, Maryland, Missouri and Iowa having each in the order named a larger production. In 1889 she produced 4,726,047 long tons of coal and 665,193 tons of coke, advancing to fourth rank in coal production and second in production of coke. From the official report for 1890 of Mine

Inspector Spruce, of the second district, just received, I may safely estimate the State's output of coal in 1890 at 5,359,000 long tons, and the coke production at 1,000,000 tons. If the report from the first district of the State shall verify this estimate, the increase in West Virginia's coal production during the current year will be over 13 per cent., and in coke production over 68 per cent. Comparing the output of 1880 with that of 1890 shows an increase of 285 per cent., or an average annual increase of 28½ per cent.

While this ratio of increase exceeds that of any other coal-producing State, a combination of peculiar advantages and high merit in favor of West Virginia coals must bring about a much more rapid increase in the production during the next five years. There is, indeed, at this time unprecedented activity in the coal-mining industry. Within the year the Monongah Coal & Coke Co., which owns large bodies of coal between Fairmont and Clarksburgh, has opened mines in the vicinity of Fairmont at two points, with an output daily capacity approximating 2,000 tons, and is constructing a plant of 500 coke ovens. Several other large operators—Pennsylvanians who recognize a superior quality of coal when they see it—purchased a large boundary of coal in the same field a few months ago, and will open mines on an extensive scale. The Davis syndicate has also recently purchased and will operate two extensive tracts of coal there. The vein operated is the Pittsburgh seam, 9 feet thick, the one persistent and important seam of our coal series. The coal is unequaled as a gas coal, and the coke product sells readily in the markets in competition with the famous Connellsville coke. The U. S. Geological Report contains the following comparative analyses of these two cokes, pages 379–428 :

	Fixed carbon.	Ash.	Sulphur.	Authority.
Connellsville—Bradford mines....	80.576	9.113	0.821	A. S. McCreath.
Fairmont—Montana mines	91.85	6.820	0.480	D. T. Day.

In the Kanawha and New River district, with a large area of undeveloped coal field, the demand for coal continues to exceed the output, notwithstanding the rapid increase in the production; hence we may look for greater percentages of increase every year. By reason of cheap river transportation the markets of the great Ohio and Mississippi valleys are open beyond any controlling competition to the Kanawha coal trade, while over the Chesapeake & Ohio railroad it has access to the tidewater wharfs at Newport News, distant only, say 365 to 398 miles. The Kanawha and New River coals exceed the Pittsburgh, Youghiogheny and Hocking Valley coals in per cent. of fixed carbon, have a less per cent. of ash and sulphur, and are quite as rich in volatile matter. They are second to none in the world as steam raisers. New River coke gives off an intense heat, leaving only a nominal quantity of ash, and its excellence is freely admitted and commands for it the best prices in the market.

But perhaps the most notable development in this State is taking place in the Pocahontas and Elkhorn district. This field, extending from Webster and Nicholas counties in this State to Tazewell and Russell counties in Virginia, is opened up by the extension of the Norfolk & Western railroad. It was only in 1883 that shipments began, but last year the output had already reached 1,592,435 tons of coal and 253,170 tons of coke. This growth is phenomenal. That it will continue, if not indeed increase, is beyond doubt. The coal is of superior quality and thickness. The Norfolk & Western, as stated above, will complete its road to the Ohio river during the next year, giving to this district, rich in timber as well as coal, a direct western outlet that will stimulate its operations to a wonderful degree.

As illustrative of the remarkable coal deposits found in this State, I may refer to a conspicuous development on Pond Fork of Little Coal river, in Boone county. There may be seen no less than ten seams of coal, ranging from 2 feet 7 inches to 12 feet in thickness, and aggregating 68 feet 11 inches of coal from top to bottom. One vein is pure cannel coal 42 inches thick, overlaid with 34 inches of splint.

By way of a hint to foreign investors, I may mention that undeveloped areas of coal of the best quality and of good workable seams are still buyable in interior counties at from $10 to $20 an acre, surface and all, and timbered at that! Thousands of acres of coal, too, lying immediately on the line of the Baltimore & Ohio, in character, quality and thickness the same as the Connellsville coal, can be purchased at from $25 to $40 per acre.

THE IRON ORES OF THE STATE.

There has been comparatively no development of the iron ores of West Virginia. A few small blast furnaces have worked the native ores which belong to and are found in the coal measures in the northern part of the State, but lack of cheap transportation facilities at the time caused the abandonment of these enterprises, and but little atten-

tion has since been paid to our iron ore deposits. The furnace at Irondale, in Preston county, is, I believe, the only one remaining in operation. It has for many years successfully worked a seam of ore 16 to 20 inches thick, and the plant has lately been improved and its capacity increased. The rapid development of our coals, however, and the extension of our railroads into the interior of the State, will certainly excite a more active inquiry into the extent and value of our iron ores. The present knowledge concerning them may be presented by a brief mention of the varieties of ore found, grouping them under the heads of carbonates and oxides.

Carbonates, more or less oxidized by exposure, extend across the entire State from and including Preston county to Big Sandy river, the Kentucky State line. They are found in many forms—kidney, nodular, beds of different colors, from greenish gray to black of the black band ; of varying thickness, from 6 inches to six feet, and yielding from 30 to 40 per cent. of iron of high grade, especially when made with charcoal or high grade coke. These carbonates, particularly the limestone ore, can be mixed to great advantage with the oxides. Elk river and sixty miles of the Great Kanawha may be said to divide the State into two nearly equal parts, and among iron men it is well known that the valley of Elk from head to mouth, a distance of 190 miles as the river runs, has almost throughout its whole length carbonates in workable beds of high quality, including some valuable beds of black band ore. No iron in the market, I may add, was in better demand or commanded a higher price than the iron made a few years ago at the Savage furnace, in Braxton county.

In considering the oxides, however, we come to what may be properly styled the Iron Region of West Virginia. Beginning at Harper's Ferry, and running with the Virginia line to Tazewell, through the West Virginia counties of Jefferson, Berkeley, Morgan, Hampshire, Hardy, Grant, Pendleton, Pocahontas, Greenbrier, Monroe and Mercer, we find the true eastern oxides—red and brown hematite ores in large and persistent veins or beds, and inclining at a good angle for mining. Through Hampshire, Hardy and Pendleton both kinds are abundant—the red ore of more than ordinary quality and quantity. This is generally called the Clinton ore (red fossil and red shale), and is identical with the great ore bed of the Red Mountain District, Birmingham, Ala. There runs from Greenbank, in Pocahontas county, to Anthony's creek, in Greenbrier county, 10 miles northeast of White Sulphur, a mountain some 40 miles long, which we may collectively call the "Beaver Lick." This mountain has throughout its whole length fine veins of red fossil and red shale, and, intermittingly, pipe ore. These red ores are understood to be equal in quality and quantity to the red ores of East Tennessee. It is claimed also by those who ought to know that the brown hematite ore is found in very thick beds in this mountain.

Of the extraordinary value of this ore field there is now most conclusive evidence, and it is likely at no distant day to be penetrated by both the Camden and Davis railroad systems, bringing the New River coking coal, only twenty miles away, into the region, when these ores will be most keenly sought after. The lower Helderburg limestone, used so much as a flux, is found in this mountain everywhere.

The brown hematite ore extends through the eastern part of Monroe county. Some half dozen chemists of character and reputation have analyzed it, and while not proving a Bessemer ore, it is the very thing for the basic process, with the magnesian limestone right at hand. Two tons of this ore will make a ton of iron in everyday furnace work year in and year out. As to quantity, I have it at first hand from those who have been on the ground, that it lies in continuous beds and outcrops from 20 to 50 feet thick. In East River mountain, the line between Mercer and Giles counties, thick beds of this brown ore are found, being, in fact, but a continuation of Peter's mountain, southwest of New river.

The manufacture of iron has as yet received little attention, because until quite recently the extent of our resources and the favorable conditions have not been generally understood. West Virginia is destined in the near future to take high rank as a producer of pig iron. Indeed, I have the best authority—the report of an English expert of known character and ability, who has made a report for an English syndicate who contemplate making large investments—for stating that pig iron can be made in the northeastern part of the State for $7 a ton, which is the lowest point yet reached in the cost of production. Even this remarkable statement does not show the full measure of advantage enjoyed by this portion of the State, because the product of the furnaces and mills will be so near to the great markets and to tidewater that the item of transportation will be insignificant. Many large enterprises have lately been organized to utilize these extraordinary advantages, notably a company to build an industrial town, based on iron and steel production, at Shenandoah Junction. The same conditions have led to the

organization of a company at Charles Town, and other similar enterprises are reported in various stages of progress.

THE OIL PRODUCTION.

Rich as is West Virginia in coal, iron and timber, the past two years have demonstrated that she is no less rich in deposits of petroleum oil. There are now three well-defined producing fields along parallel lines having a general northeast and southwest direction, and the activity of the operators, the millions of capital already invested, the extent and character of the territory make the State the chief rival of Pennsylvania as the source of the future oil supply of the country.

The newer developments embrace the Eureka and Belmont field in Pleasants county, and the Mannington and Doll's Run field in Marion and Monongalia counties, respectively. The last two named are an extension of the Mt. Morris (Pa.) field. The source of production is the "Big Injun" sand rock, found at a depth of about 1,900 feet. The first important well in the Mannington pool was struck early last spring, since which time over 40 producing wells have been brought in, yielding a monthly production of over 60,000 barrels. The development is going on at the same rapid rate. The oil is a good grade of light premium, commanding 20 cents per barrel above quoted market prices. The amount of capital now invested in the industry at Mannington is estimated to be little short of $1,500,000. The "Big Injun" oil line is supposed to extend south to below the Kanawha river. Test wells have been drilled and are drilling along this belt of territory with more or less favorable results.

The Belmont and Eureka district in Pleasants county derives its oil from the Berea grit, an extremely rich sand, at a depth of about 1,200 feet, though a good grade of "heavy" oil is also found in limited quantities in the shallow sands. In this field the development has been even more rapid than in the Mannington region, and the production much greater. The average cost of the wells is $3,000, and the average yield is unusually good, many of the wells coming in with a flow of from 500 to 1,000 barrels per day. The head wells in this field are now as far north as the town of St. Mary's. I am unable to report the production of this district. It probably exceeds several times that of the Mannington field.

A very important development is that in the horizon of the well-known Gordon sand along a line extending southwest from the Little Washington and Ninevah pools in Pennsylvania through Wetzel and other counties in this State. Experienced oil men predict that this will be the great oil field of the future. The first producing well in this sand within the State was brought in a month or more ago near Littleton, Wetzel county. It is variously reported at from 300 to 600 barrels. A rapid development may be expected to follow, and if the prolific character of the Gordon sand rock is maintained, an enormous production from the new field may safely be anticipated.

WHAT WEST VIRGINIANS ARE DOING.

Let it not be assumed that West Virginians are awaiting in idleness the influx of foreign capital and enterprise to develop the immense natural resources I have attempted to describe, nor that the State has made no considerable progress in that direction, and is in many respects what might in popular phrase be styled "a back number." The industrial channels into which they could direct their energies are so many that they have found it impossible to occupy all, but they are leading in every enterprise of magnitude. They have brought to a condition of fine cultivation a great portion of the State, built railroads, cities and towns, established manufactures, created a splendid system of schools, erected creditable public buildings and have kept out of debt. The State tax rate has averaged but a fraction over 30 cents on the $100 valuation since the birth of the State, and in the past year (1890) the sum of $1,293,164.98, realized from State and local school levies and the invested school fund, was disbursed to the public or free schools.

I have mainly confined this article to the natural advantages and resources of the State, and have omitted to refer to her prosperous manufacturing industries. Our steel, iron, nail, glass, pottery, fire-brick and tiling, salt, tanning and brewing interests are extensive and have increased with surprising rapidity in the past ten years. The city of Wheeling is a center of the iron trade, and the largest nail market in the world. Nearly all of the large and prosperous towns in the State have their electrical plants, street railways and daily newspapers.

The State in every quarter is wonderfully prosperous, and to the attractions of its varied treasures of forest and mine its people add a cordial welcome to all who may come to aid in their development.

CHARLESTON, W. VA., December 24, 1890.

STATE GOVERNMENT.

Capitol Building, Charleston.

EXECUTIVE.

Governor—A B Fleming, Fairmont, Marion.
Secretary of State—Wm A Ohley, Fairmont, Marion.
Auditor—Patrick T Duffy, Webster C H, Webster.
Treasurer—W T Thompson, Huntington, Cabell.
Attorney-General—Alfred Caldwell, Wheeling, Ohio.
State Superintendent Free Schools—Benjamin S Morgan, Morgantown, Monongalia.
Librarian—Charles L Hagan, Fairmont, Marion.
State Bank Examiner—Charles W Young, Charleston, Kanawha.
Adjutant-General—Benjamin H Oxley, Charleston, Kanawha.
Labor Commissioner—Edward Robertson, Wheeling, Ohio.

STATE MILITIA.

His Excellency A B Fleming Governor and Commander-in-Chief, Charleston.

GOVERNOR'S STAFF.

Brigadier-General B H Oxley, Adjutant and Quartermaster-General, Charleston, March 12, 1890.
Brigadier-General John W Bosworth, Surgeon-General, Phillipi, May 14, 1890.
Brigadier-General A A Franzheim, Commissary-General, Wheeling, May 14, 1890.
Brigadier-General John Hooe Russel, Paymaster-General, Huntington, May 22, 1890.
Colonel W A McCorkle, A D C, Charleston, April 17, 1890.
Colonel J T Bowyer, A D C, Winfield, April 17, 1890.
Colonel Thomas M Jackson, A D C, Clarksburgh, July 22, 1891.
Colonel B D Gibson, A D C, Charleston, August 11, 1891.

INSPECTORS OF MINES.

D M Harr, First District, Hoult, Marion.
M F Spruce, Second District, Eastbank, Kanawha.

BOARD OF PUBLIC WORKS.

A B Fleming, Governor, President.
P F Duffy, Auditor.
W T Thompson, Treasurer.
Alfred Caldwell, Attorney-General.
B S Morgan, State Superintendent Free Schools.
Wm A Ohley, Secretary of State, Secretary *ex officio*.

THE BOARD OF THE SCHOOL FUND.

A B Fleming, Governor, President.
B S Morgan, State Superintendent Free Schools.
P F Duffy, Auditor, Secretary.
W T Thompson, Treasurer.

STATE BOARD OF AGRICULTURE.

First Congressional District—Benjamin F Fisher, Sutton, Braxton.

John S Naylor, Wheeling, Ohio.
R S Carr, Charleston, Kanawha.
George M Bowers, Martinsburgh, Berkeley.
Sidney Haymond, Quiet Dell, Harrison.
President—W N Chancellor.
Treasurer—George M Bowers.
Secretary—M C McKay, Ravenswood.

PUBLIC PRINTING.

Superintendent—Wm A Ohley, Secretary of State.
Public Printer—Moses W Donnally, Charleston.

THE STATE JUDICIARY.

SUPREME COURT OF APPEALS.

President—D B Lucas, of Jefferson county.
Judges—J W English, of Mason county ; Henry Brannon, of Lewis county ; Homer A Holt, of Greenbrier county.
Clerk—O S Long, of Kanawha county.
Reporter—Alfred Caldwell, Attorney-General, Ohio county. Assistant O D Cook.
Three annual sessions of the Supreme Court of Appeals are held as follows :
At Charleston, Kanawha county, commencing on the second Wednesday in Jan.
At Wheeling, Ohio county, commencing on the first Wednesday in June.
At Charles Town, Jefferson county, commencing on the first Wednesday in Sept.

CIRCUIT COURTS.

FIRST JUDICIAL CIRCUIT.

Judges—J R Paul and J A Campbell.

Hancock—Fourth Monday in March, fourth Monday in June and the first Monday in November.

Brooke—First Monday in March, first Monday in June and the second Monday in October.

Ohio—Second Monday in April, first Monday in September and the third Monday in November.

Marshall—First Tuesday in March, first Tuesday in June and the second Tuesday in October.

SECOND JUDICIAL CIRCUIT.

Judge—J. M. Hagans.

Harrison—Second Tuesday in January, second Tuesday in May and second Tuesday in September.

Marion—First Tuesday in March, first Tuesday in July and fourth Tuesday in November.

Monongalia—Second Tuesday in February, second Tuesday in June and second Tuesday in October.

THIRD JUDICIAL CIRCUIT.

Judge—J T Hoke.

Barbour—Twelfth day of February, twenty-second day of May and the thirteenth day of October.

Preston—Eleventh day of December, twenty-second day of March and first day of September.

Randolph—Twenty-first day of January, first day of May and tenth day of October.

Taylor—Second day of January, eleventh day of April and eighteenth day of Sept.

Tucker—Fifth day of March, twelfth day of June and nineteenth day of Nov.

FOURTH JUDICIAL CIRCUIT.

Judge—T P Jacobs.

Doddridge—Third Tuesday in March, third Tuesday in July and third Tuesday in November.

Ritchie—Third Tuesday in February, third Tuesday in June and third Tuesday in October.

Tyler—Second Tuesday in April, second Tuesday in August and second Tuesday in December.

Wetzel—Third Tuesday in January, third Tuesday in May and third Tuesday in September.

FIFTH JUDICIAL CIRCUIT.

Judge—A I Boreman.

Pleasants—Second Monday in March, first Monday in June and first Monday in October.

Wirt—On the Tuesday next after the fourth Monday in March, the Tuesday next after the third Monday in June, and the Tuesday next after the third Monday in October.

Wood—Second Monday in February, second Monday in July and second Monday in November.

SIXTH JUDICIAL CIRCUIT.

Judge—V S Armstrong.

Calhoun—Fifteenth day of February, fifteenth day of June and fifteenth day of October.

Clay—Second Monday in May, second Monday in September and second Monday in December.

Gilmer—First day of February, first day of June and first day of October.

Jackson—First day of March, first day of August and first day of November.

Roane—Twenty-fifth day of March, twenty-fifth day of August and twenty-fifth day of November.

SEVENTH JUDICIAL CIRCUIT.

Judge—F A Guthrie.

Kanawha—Second Monday in March, second Monday in June and first Monday in December.

Mason—First Monday in February, first Monday in May and first Monday in Sept.

Putnam—Fourth Monday in February, fourth Monday in May and fourth Monday in September.

EIGHTH JUDICIAL CIRCUIT.

Judge—Thomas H Harvey.

Cabell—First Monday in March, fourth Monday in August and fourth Monday in November.

Lincoln—Third Monday in February, second Monday in August and second Monday in November.

Logan—Third Monday in April, third Monday in July and third Monday in October.

Wayne—Fourth Monday in January, fourth Monday in May and fourth Monday in September.

NINTH JUDICIAL CIRCUIT.

Judge—R G McClaugherty.

Boone—Third Monday in April, third Monday in July and third Monday in October.

McDowell—On Wednesday after the third Monday in May, Wednesday after the first Monday in July, and first Wednesday after first Monday in October.

Mercer—First Monday in March, third Monday in June and third Monday in November.

Raleigh—Fourth Monday in April, fourth Monday in July and fourth Monday in October.

Wyoming—Second Monday in April, second Monday in July and second Monday in October.

TENTH JUDICIAL CIRCUIT.

Judge—A N Campbell.

Fayette—Fourth Tuesday in February, third Tuesday in May and third Tuesday in September.

Greenbrier—Third Tuesday in April, fourth Tuesday in June and first Monday in November.

Monroe—Third Tuesday in March, first Tuesday in June and first Tuesday in Oct.

Pocahontas—First Tuesday in April, third Tuesday in June and third Tuesday in October.

Summers—Second Tuesday in February, first Tuesday in May and first Tuesday in September.

ELEVENTH JUDICIAL CIRCUIT.

Judge—W G Bennett.

Braxton—Fourth Monday in April, fourth Monday in August and fourth Monday in November.

Lewis—First Monday in March, third Monday in June and third Monday in Oct.

Nicholas—On Wednesday after the second Monday in April, and on Wednesday after the second Monday in August, and on Wednesday after the second Monday in November.

Upshur—Second Monday in February, first Monday in June and first Monday in October.

Webster—First day of April, first day of August and first Monday in November.

TWELFTH JUDICIAL CIRCUIT.

Judge—J D Armstrong.

Grant—Fourth Tuesday in March, first Tuesday in June and third Tuesday in October.

Hampshire—First Tuesday in February, second Tuesday in May and third Tuesday in September.

Hardy—Second Tuesday in March, last Tuesday in May and first Tuesday in Oct.

Mineral—Second Tuesday in January, fourth Tuesday in April and first Tuesday in September.

Pendleton—Second Wednesday in April, Wednesday after the second Tuesday in June and first Wednesday in November.

THIRTEENTH JUDICIAL CIRCUIT.

Judge—J S Duckwall.

Berkeley—Second Tuesday in January, second Tuesday in April and second Tuesday in September.

Jefferson—Second Tuesday in February, third Tuesday in May and third Tuesday in November.

Morgan—First Tuesday in January, first Tuesday in April and second Tuesday in August.

LOOK AT SOMETHING NEW, NEAT AND DURABLE.

Church. School. Hall. Theater. Store. Parlor. Library. Kitchen.

Far surpassing either plaster or wood ceilings. Send size and diagrams of rooms and get special designs. ☞ These ceilings are covered by six original patents.

A. NORTHROP & CO., Sole Manufacturers, South 23d and Mary Sts., **PITTSBURGH, PA.**

THE

WEST VIRGINIA & PITTSBURGH RAILROAD,

WITH ITS

MAIN LINE, BRANCHES AND EXTENSIONS,

TRAVERSES ONE OF THE

MOST RESOURCEFUL REGIONS

IN THE

STATE OF WEST VIRGINIA,

And is opening up a comparatively **NEW COUNTRY**, which is being rapidly developed, and offers more substantial inducements for settlement than any other section in the Southern States. The

Immense Forests of Pine and Hardwood.

Veins of Coking, Gas and Fuel **COAL,** and beds of **IRON ORE** in this wonderful area, are sources of wealth that have not escaped the manufacturer and prospector, and this territory is attracting widespread attention.

This section offers a Golden Opportunity for **INVESTMENT** and **BUSINESS.**

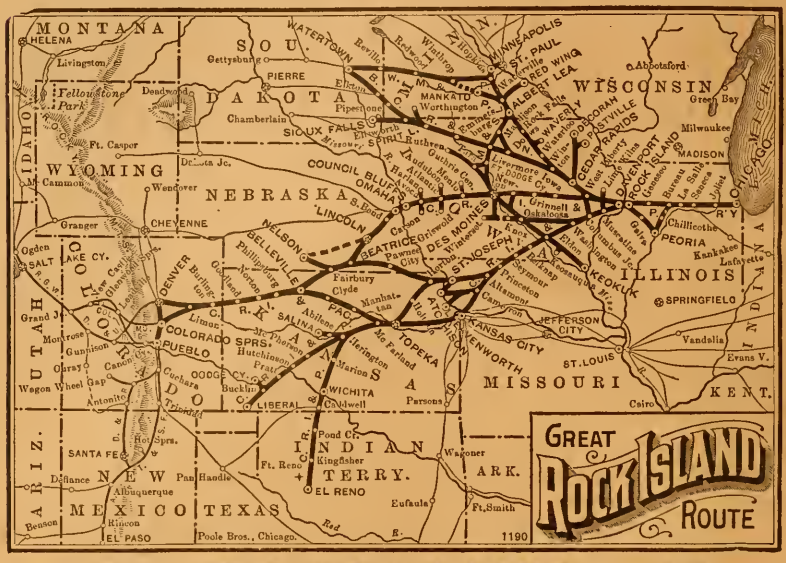
For further information and time tables, address

J. N. CAMDEN, President,

PARKERSBURGH, W. VA.

A MAN

UNACQUAINTED WITH THE GEOGRAPHY OF THE COUNTRY, WILL OBTAIN MUCH VALUABLE INFORMATION FROM A STUDY OF THIS MAP OF



THE GREAT ROCK ISLAND ROUTE.

(Chicago, Rock Island & Pacific and Chicago, Kansas & Nebraska Rys.)

Its main lines, branches and extensions west, northwest and southwest include Chicago, Joliet, Ottawa, Peoria, La Salle, Moline, Rock Island in ILLINOIS—Davenport, Muscatine, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Knoxville, Winterset, Atlantic, Audubon, Harlan, Guthrie Centre, and Council Bluffs in IOWA—Minneapolis and St. Paul in MINNESOTA—Watertown and Sioux Falls in DAKOTA—Gallatin, Trenton, Cameron, St. Joseph, and Kansas City in MISSOURI—Beatrice, Fairbury, and Nelson in NEBRASKA—Horton, Topeka, Hutchinson, Wichita, Belleville, Norton, Abilene, Caldwell, in KANSAS—Colorado Springs, Denver, Pueblo, in COLORADO. Traverses new and vast areas of rich farming and grazing lands, affording the best facilities of intercommunication to older States and to all towns and cities in Southern Nebraska, Kansas, Colorado, Utah, New Mexico, Indian Territory, Texas, Arizona, Idaho, California, and Pacific coast and trans-oceanic Seaports.

SOLID FAST VESTIBULE EXPRESS TRAINS

Of Palace Coaches—leading all competitors in splendor of equipment and luxury of accommodations—run through daily between Chicago and Colorado Springs, Denver and Pueblo. Similar MAGNIFICENT VESTIBULE TRAIN SERVICE daily between Chicago and Council Bluffs (Omaha), and between Chicago and Kansas City. Elegant Day Coaches, Dining Cars, Reclining Chair Cars (FREE), and Palace Sleeping Cars. California Excursions daily. Choice of routes to and from Salt Lake City, Portland, Los Angeles, San Diego, San Francisco, and intervening localities. Quick time, prompt connections and transfers in Union Depots.

THE FAMOUS ALBERT LEA ROUTE

Runs superbly equipped Express Trains daily each way between Chicago, Rock Island, Atchison, St. Joseph, Leavenworth, Kansas City and Minneapolis and St. Paul. The Favorite Tourist Line to the scenic resorts, and hunting and fishing grounds of the Northwest. Its Watertown Branch courses through the most productive lands of Northern Iowa, Southwestern Minnesota, and East Southern Dakota.

THE SHORT LINE VIA SENECA AND KANKAKEE offers facilities to travel between Cincinnati, Indianapolis, Lafayette, and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, and St. Paul.

For Tickets, Maps, Folders, or desired information, apply to any Coupon Ticket Office in the United States or Canada, or address

E. ST. JOHN, General Manager.

Chicago, Ill.

JOHN SEBASTIAN, Gen'l Ticket and Pass. Agent.

A GREAT RAILWAY

The Chicago, Milwaukee & St. Paul

RAILWAY COMPANY

Now Operates over 6,100 Miles of Thoroughly Equipped Road in

ILLINOIS, WISCONSIN, NORTHERN MICHIGAN,
MINNESOTA, IOWA, MISSOURI,
SOUTH AND NORTH DAKOTA.

Each recurring year its lines are extended in all directions to meet the necessities of the rapidly populating sections of country West, Northwest and Southwest of Chicago, and to furnish a market for the products of the Greatest Agricultural and Stock Raising Districts of the World.

In Illinois it operates 317 Miles of Track, in Wisconsin 1,636 Miles, in Northern Michigan 96 Miles, in Iowa 1,551 Miles, in Minnesota 1,115 Miles, in South Dakota 1,092 Miles, in North Dakota 118 Miles, in Missouri 140 Miles,

And the end is not yet. It has terminals in such large cities as

Chicago, Milwaukee, La Crosse, St. Paul, Minneapolis, Fargo, Sioux City, Council Bluffs, Omaha, Kansas City and St. Joseph, Mo.

And along its lines are hundreds of large and small thriving cities, towns and villages. Manufacturing interests are cultivated, and all branches of trade find encouragement. The Railway Company has a just appreciation of the value of its patrons, and its magnificent earnings are the result of the good business tact which characterizes the management of its affairs.

The popularity of the line is attested by the fact that notwithstanding the strongest kind of competition of old and new lines, the CHICAGO, MILWAUKEE & ST. PAUL RAILWAY continues to carry the greater portion of all the business between CHICAGO, MILWAUKEE, ST. PAUL and MINNEAPOLIS. It is the best patronized route between CHICAGO, COUNCIL BLUFFS and OMAHA, and to and from all points in WISCONSIN, MINNESOTA, DAKOTA and IOWA, and its KANSAS CITY AND ST. JOSEPH LINE has taken equal rank with the older lines leading to and from the Southwest.

On all its through lines of travel the CHICAGO, MILWAUKEE & ST. PAUL RAILWAY runs the most perfectly equipped trains of

Sleeping, Parlor and Dining Cars and Coaches.

The through trains on all its lines are systematically heated by steam. No effort is spared to furnish the best accommodations for the least money, and, in addition, patrons of the road are sure of courteous treatment from its employes.

GEO. H. HEAFFORD, Gen'l Pass. and Ticket Agent,

CHICAGO, ILLINOIS.

THE

RUN

Fast Trains with Pullman Vestibuled Drawing Room Sleepers, Dining Cars and Coaches of latest design, between **Chicago** and **Milwaukee,** and **St. Paul** and **Minneapolis.**

Fast Trains with Pullman Vestibuled Drawing Room Sleepers, Dining Cars and Coaches of latest design, between **Chicago** and **Milwaukee,** and **Ashland** and **Duluth.**

Through Pullman Vestibuled Drawing Room and Tourist Sleepers via the **Northern Pacific Railroad** between **Chicago** and **Portland, Ore.,** and **Tacoma, Wash.**

Convenient Trains to and from Eastern, Western, Northern and Central Wisconsin points, affording unequaled service to and from **Waukesha, Fond du Lac, Oshkosh, Neenah, Menasha, Chippewa Falls, Eau Claire, Hurley, Wis.,** and **Ironwood** and **Bessemer, Mich.**

For tickets, sleeping car reservations, time tables and other information, apply to Agents of the line, or to Ticket Agents anywhere in the United States or Canada.

S. R. AINSLIE, Gen. Mngr., Milwaukee, Wis.

H. C. BARLOW, Traffic Mngr., Chicago, Illinois.

J. M. HANNAFORD, Gen. Traffic Mngr., St. Paul, Minn.

JAS. C. POND, Gen. Pass. & Ticket Agent, Chicago, Illinois.

Some Facts About Santa Fe Route:

In point of mileage (9,000 miles and over), equipment (solid vestibuled trains), and general excellence (ballasted road bed, steel rails, etc.), we rank among the few great railway systems of the world.

Some lines begin nowhere and end at the same place. Look at our termini: Chicago, St. Louis, Kansas City, Galveston, Denver, El Paso, San Francisco, Los Angeles and San Diego. Look at our train service:

THROUGH PULLMAN PALACE VESTIBULED SLEEPERS,

Chicago to Galveston, San Francisco and Los Angeles; and to Denver.

But because the miles are many, it does not follow that there is a corresponding deficiency in the details of management. On the contrary, everything is carefully looked after. The comfort and safety of passengers is never forgotten.

OUR PERSONALLY-CONDUCTED EXCURSIONS TO PACIFIC COAST

Are a big card for the season of 1891-'92. Every Thursday evening Pullman Tourist Cars leave Chicago on regular train for Northern and Southern California Points, running through via Kansas City (which station they leave Friday morning of each week), in charge of experienced excursion conductors. Second-class tickets honored. A small extra charge for double berth in Pullman. These excursions are patronized by the best classes of people, and are specially intended for ladies and children, the aged and infirm. Address

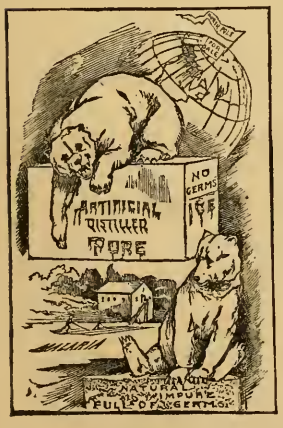
WHEELING ICE AND STORAGE CO.,

MANUFACTURERS OF



Pure Ice

FROM DISTILLED WATER.

No chemicals are used at any stage of the process, and consequently no impurities are introduced. Compared with natural ice, its PURITY places it far beyond competition. When melted it furnishes the PUREST DRINKING WATER obtainable. It is absolutely free from all slime, sediment and odor. Its lower temperature renders it far superior to natural ice for cooling purposes, and for the same reason it will last nearly one-third longer.

Cold Storage Warehouse in Connection.

General Storage for all PERISHABLE GOODS.

Special attention given to foreign shipments. Inquire for prices before purchasing elsewhere.

WEST VIRGINIA STATE GAZETTEER

AND

BUSINESS DIRECTORY.

FOR

1891-92.

In the following section of the work the cities, villages and postoffices of West Virginia are arranged in alphabetical order, and a description is given of each place, with an alphabetical list of all persons doing business therein or receiving mail at that postoffice. In all the larger places the names have been procured by personal canvass, but in the smaller they have been furnished by postmasters. Great care has been taken to insure correctness as well as completeness.

AARONS. A farmers' postoffice in Kanawha county, 16 miles from Charleston, the judicial seat, banking and shipping point. Population, 150. Mail, daily. A. J. Hammack, postmaster and justice.

ABBS VALLEY. On the N. & W. R. R., in Mercer county, 15 miles from Princeton C. H., and 3 from Bramwell, the nearest bank location. R. E. Green, postmaster.

Black W E, railway and express agent.

ABERDEEN. In Lewis county, 10 miles from Weston, the judicial seat, banking and shipping point. Population, 33. J. S. Wolverton, postmaster.

Law T A, Farm Implements and Flour Mill.
Law W O & Sons, live stock.
Wolverton J S, shoemaker and saddler.

ACADEMY. A prosperous village of 300 inhabitants, situated in the southeastern part of Pocahontas county, 17 miles from Huntersville C. H., 250 from Wheeling, and 35 from Ronceverte, the nearest railroad point. The nearest bank is at Lewisburgh. Mrs. A. S. Clark, postmaster.

Bird Uriah J, flour mill.
Adkinson Henry, shoemaker.
Brown Rev C A, prin M and F Academy.
Burgess H W, saddlery.
Burns & Bro, blacksmiths.
Clark Sherman H, live stock.
Clendenen G G, blacksmith.
Collison C W, hotel.
Curry George, shoemaker.
Dunlap' M A, justice.
Eskridge Charles W, dentist.
Grim Wm, saw mill.
Henry Patrick, saw mill.
Hillsboro Training School, Miss G M Sheare prin.
Holt Edward J, General Store.
Kennison John B, blacksmith.
Larme James A, physician.
McClintic F T, physician.
McNeil Isaac, flour mill.
McNeil Wm L, live stock.
Male and Female Academy, Rev C A Brown prin.

SCHOOLS. EDWARD B. FRANZHEIM, ARCHITECT, PUBLIC LIBRARY BUILDING, WHEELING, W. VA.

Moore E H, hotel.
Peyatt Marshall, shoemaker.
Poerholt Wm H & Co, general store.
Renick F A, live stock.
Sheare Miss G M, prin Hillsboro Training School.
Shine Jacob T, blacksmith.
Smith Asbury, carp and planing mill.
Stulting Hermanas, jeweler.

ACME. A coal mining settlement in Kanawha county, on the Kanawha Ry, 30 miles from Charleston, the judicial seat and nearest banking point. Population, 500. F. L. Garrison, postmaster.

Acme & Keystone Coal Mines, Stevens Coal Co proprs.
Brooks W E, general store.
Campbell, physician.

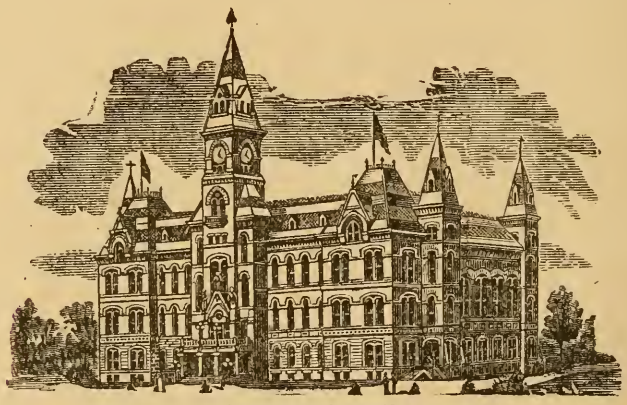
CHARLESTON. The history of West Virginia's capital is rather interesting. For a long time it remained practically on wheels, vibrating back and forth between Wheeling and Charleston, until mapmakers began, in order to be on the safe side, to mark both places as capitals. The State was new and in an unsettled condition, and this restlessness on the part of the seat of government was something in keeping with the general character of a new order of things. It soon became evident, though, to the people of the State, that this sort of thing wouldn't do, and, after a hard fight, Charleston was decided on by a popular vote as the permanent seat of government. In 1885, after a stay of ten years in Wheeling, the capital was returned to Charleston. Periodically some one brings up the question of its removal, but it never meets with favor, and the entire State has long looked on the capital question as permanently settled. Charleston was settled in 1787, and until 1800 was known as Charlestown. It is beautifully located in the valley of the Great Kanawha, 60 miles from its mouth, 40 miles below the head of navigation at Kanawha Falls and 232 miles from Wheeling. The Elk river flows along its western border and empties into the Kanawha, forming the corporate limits of the city. The valley is hemmed in on either side with mountains—some of the outlying portions of the Alleghany range—which follow the winding course of the river and give to Charleston the appearance of being completely surrounded by hills. Almost at the head of 3,000 miles of river navigation, open throughout the year, Charleston enjoys facilities for river transportation almost unequaled. By means of the C. & O. Ry on one side of the Kanawha, and thd K. & M. on the other, which furnishes direct communication with Columbus and Toledo, Ohio, and Chicago, Ill., Charleston is placed within easy access of the world. Seven hours is the time to Cincinnati, sixteen to Chicago, and nineteen to New York. Charleston is one of the principal cities in the southern part of the State; and upon her is dependent almost the entire population of the counties south of the center of the State. With the rapid development that has been in progress in this section and the consequent increase in the business of Charleston, it is no wonder that she has grown and grown rapidly. The census of 1890 shows an increase of nearly 100 per cent. in the population of the city in ten years. Charleston's limits are cramped, comprising not over 375 acres, and a considerable portion of her population as well as of her industrial plants are located beyond the city limits. This will account in some measure for Charleston's small population as shown by the last census, being put down at about 7,000. Immediately adjoining Charleston and separated only by the Elk river, which is spanned by three free bridges, are the villages of West Charleston and Glen Elk, with a population of over 2,000. These places are as much a part of Charleston as if they were within the corporation, and there is a bill now before the West Virginia Legislature to provide for the exten-



CAPITOL BUILDING.

LIQUORS. P. WELTY & CO., WHOLESALE LIQUOR DEALERS,
1118 Main and 1121 Market St., Wheeling, W. Va.

sion of the city so as to include these places. On the east, separated by an imaginary line only, is the town of Ruffner, with a population of several hundred, and the South Side, across the Kanawha, has almost as many. These suburbs, all lying within a mile of the center of the city, swell the population of Charleston proper to between 10,000 and 11,000, of which much more than half represents the growth of ten years. Not in numbers alone has the city advanced in the last ten years, but especially marked has been the material progress in that time. Every street in the business portion has been paved, and many others, giving good streets to almost every portion of the city. Water works were organized and now water is supplied constantly to the fire plugs on nearly every corner and to private consumers, the water being pumped direct from the Elk River and at a capacity of 3,000,000 gallons per day. With the water works came the increased necessity of sewers, and the city is now undermined with a network of sewers that suffice to carry off all surface water and waste, leaving the city clean and healthy. The gas street lamps have given way to an excellent system of electric arc lighting, while gas, incandescent and arc electricity, or any of them, may be used by private

consumers. Compressed though the city is, within narrow limits, means of transportation have been found necessary, and the Charleston Street Railway is the result. Over two miles of railway are in successful operation. One thing of which Charleston is especially proud is her free school system. Three large school buildings, two for whites and one for colored, are always crowded, and now with one large building only recently completed, at a cost of $60,000, more buildings are necessary, and two new buildings will be required within a year, one for white and one for colored pupils. In the erection of buildings for public worship, Charleston has equaled many a city twice her size. The stone edifices of the First and Kanawha Presbyterian and St. John's Episcopal churches are handsome enough for any city and are models of beauty, comfort and elegance worthy of imitation. Aside from these are three Methodist (one colored), two Baptist (one colored), Catholic and Christian churches. Among other public buildings may be mentioned the Capitol, a magnificent structure of stone and brick, the United States Court House and Postoffice, a handsome pressed brick building with brown stone trimmings; the Mercer School, the Hotel Ruffner, constructed at a cost of $125,000; and the new rotary steel cell jail. There are many handsome blocks of business houses, among them being the new opera house, and Roy Furniture Co.'s building, the Gazette, Wilson, Washburne, Coyle & Richardson, and Shrewsbury blocks, and others now in course of building. The proposed new Masonic Temple will occupy a prominent corner site and be a monument of architectural beauty. The banking interests of Charleston show a healthy condition of business. The Kanawha Valley Bank has a capital and reserve of $450,000, the Charleston National Bank $150,000, and the Citizens' National Bank $130,000. Charleston's industrial establishments, while not one of them is large enough to make the city to any extent dependent upon it, when taken together form a very important factor in the city's prosperity. In these various establishments from 1,000 to 1,500 persons are regularly employed, and every concern is in a prosperous condition. All run regularly, have had no strikes or shut-downs, and all are growing. Charleston is essentially a commercial city. Not only are Kanawha and the adjoining counties dependent on her for their supplies of all kinds, but

INSURE IN THE **Peabody Insurance Co.** OF WHEELING, W. VA. Cash Capital, $100,000.00

out by Charles Washington, brother of General Washington, in 1786. On account of its easy accessibility and the beautiful and fertile section in which it is located, it has been termed the "Key of the Shenandoah," and the "Garden Spot of the Virginia Valley." Situated 380 feet above the level of the sea, it is noted for the healthfulness of its location, and commands excellent views of the North Mountains on the west, and the Blue Ridge and Harper's Ferry Gap on the east. The social, religious and educational advantages are of the best. Among the educational institutions may be mentioned the John Stevenson Female Seminary, the Charles Town Male Academy, and an excellent system of public schools. Churches of the following denominations are well supported, and attest the devout spirit of its citizens: Episcopal, Presbyterian, Baptist, Methodist and Catholic. The town is well supplied with water and gas, has an abundance of raw material for manufacturing purposes, is within easy reach of the coal and coke regions, is surrounded with fine forests of white oak, hickory, walnut, and other hard woods, boasts of inexhaustible quantities of limestone, is situated in the heart of an excellent fruit-producing region, and is destined to be a great distributing center for the numerous factories and mills which have already located and will locate at this point. There are already in successful operation two banks, five building associations, three newspapers, three planing mills, sash and blind factories, foundry and machine shops, a fertilizer factory, two grain elevators, one flour mill, one bark mill, a tannery, a creamery, two carriage factories, the Vulcan Road Machine Factory with a capital of $125,000, a capacity of 500 machines a year and which produces undoubtedly the best road-making machinery manufactured; the Charles Town Glove Works, with a capital of $50,000, the Shenandoah Brass and Iron Works, employing 50 workmen; a harness and fly net factory, with a capital of $40,000, employing 60 workmen, in addition to which there are numerous other enterprises contemplated. Two good hotels, the Elliott House and the Carter House, contribute to the comfort of the traveling public. A third hotel of extensive proportions is nearing completion. The town's contiguity to raw materials and also to the eastern markets, as shown by the following distances, render her a formidable competitor: distance from Charles Town to Washington, D. C., 2 hours; to Baltimore, 3 hours; to Philadelphia, 6 hours; to New York, 8 hours; to Pittsburgh, 12 hours; to Cincinnati, 16 hours; to Chicago, 22 hours. Express, U. S. and Adams. Tel., W. U. Samuel H. Higginbotham, postmaster.

Pine George W, blacksmith.
Pine J D, carpenter.
Schilling Jacob R, general store.
Tate A D, general store.

DAVIS. Is in Tucker county, on the Davis br. of the W. Va. C. R. R., 84 miles from Cumberland, Md., 57 from Piedmont and 25 from St. George, the county seat. Situated 3,100 feet above the level of the sea, it bids fair, at an early date, to become a noted health and summer resort. There is perhaps no town in West Virginia that has enjoyed so rapid and prosperous a growth as has Davis. Surrounded by inexhaustible quantities of coal and timber, and enjoying the best of shipping facilities, it will, beyond a doubt, grow in a few years to be a thriving city. The industries at present comprise 2 large lumber mills, one of which cuts 75,000 feet of lumber per day; numerous general stores, one good hotel and one tannery, the latter employing over 200 workmen and tanning over one million hides annually. No better location for furniture and wood working factories could be selected. Real estate has never commanded fancy prices, but sells at figures that enable the working classes to own their own homes. The dwelling houses of the town are substantially built, and many of the business blocks are excellent structures. The town has a town hall, 2 churches of the Methodist and Presbyterian denominations, and the following orders: I. O. O. F., K. of P., P. O. S. of A., and K. of M. C. One newspaper is published, the *Davis Times*, a live, enterprising weekly, edited by John T. Reger. There are four passenger trains daily between Davis and Thomas, a distance of 6½ miles. Tel., W. Va. Central. Exp., Adams. Population, 1,500. C. G. Lashley, postmaster.

P. A. Cunningham, Artistic Photographer, OVER NATIONAL BANK, - MARTINSBURG, W. VA.

Greenleaf C E, saw mill.
Hyre L E, Farmer.

ELK GARDEN. A mining town of 1,600 inhabitants, in Mineral county, located on the Elk Garden br. of the West Va. C. & P. R. R., 16 miles southwest of Keyser, the judicial seat. The nearest banking point is Piedmont, 13 miles distant. Mining is carried on extensively, there being two wealthy companies engaged in that industry, the West Virginia Central R R Co. and the Elk Garden Big Vein Mining Co. It was in the Elk Garden region that the famous 14 foot or "Big Vein" was first developed, and it is estimated by competent geologists that the field contains over a hundred million tons of workable coal. The town contains one newspaper, the *Elk Garden News*, three churches—Catholic, M. E. South and Presbyterian—a public school, planing mill, feed mill, several general stores, and good hotels. Coal and lumber are shipped. The surrounding country is excellent for grazing purposes. Real estate can be purchased at reasonable figures. Exp, Adams. Tel., W. Va. Central. E. McIntire, postmaster.

ty on the W. Va. C. & P. R. R., 113 miles from Cumberland and 6½ from Beverly. The town was begun in April, 1889, and is, therefore, less than three years old. Its present population, which is steadily increasing, is about 1,000. The natural location of the town is the most beautiful that can be imagined, situated on a plain and surrounded on all sides by foot hills that rise by regular gradations in every direction, producing a picturesque effect. The town has three hotels; one, a fine large three-story building, operated by the Elkins Hotel Company, has all the modern improvements, including furnace heat, water, gas, electric bells, baths, and all that could be desired at a first-class summer resort. The railway company's round house and machine shops are located here, and a large corrugated iron freight depot has just been completed. A bank building of blue granite, and perhaps the finest in the State, is nearing completion. Situated on one of the most prominent hills and commanding an excellent view of the town and surrounding country, is the palatial residence of Hon. S. B. Elkins, containing 82 rooms and costing a fabulous sum of money, and splendid residences are in course of erection on the adjoining hills. The railroad is being extended in two directions. The Beverly extension, 7 miles in length, will be open shortly for traffic, and will eventually be extended to the Virginia iron fields, thus tapping the richest iron region in the east. The other will run northwest to Belington, Barbour county, connecting with the Grafton & Greenbrier road, and thus gaining an outlet to Pittsburgh, Cincinnati and the west. Elkins will thus become a railroad center and will ere long be decidedly the most accessible point in the State. The entire northern and central portions of West Virginia, which have hitherto been controlled by the B. & O. R. R., and which have in consequence been made tributary to Baltimore instead of Pittsburgh, via the natural outlet, will now develop more rapidly than ever before. Markets will be nearer and freights will be lower. Elkins is blessed with superior advantages, its inexhaustible supply of coal, its virgin forests that yet stand untouched, excellent transportation facilities and the cheap living that will be incident thereto, will all combine to make it a mining and manufacturing city that will defy rivalry and competition. The trout-filled streams and forests alive with wild turkey, bear and deer, will attract sportsmen, its picturesque scenery will attract the artist, while the pure water and crisp mountain air will induce the health-seeker to visit this coming city of the Alleghenies. Exp., Adams. Tel., W. Va. Central. Telephone connection with Beverly. James S. Posten, postmaster.

FAIRMONT. The county seat of Marion county, is an important coal mining and manufacturing town of 3,000 inhabitants, situated on the Monongahela river and M. R. and B. & O. R. Rs., 77 miles from Wheeling. It has 5 churches, Presbyterian, Methodist, Episcopal, Catholic and Methodist Episcopal, State Normal School, good public schools, 3 hotels, 2 banks—The First National and The People's—2 weekly newspapers, the *West Virginian* and the *Index* are published. Its manufacturing industries comprise 1 flour mill, 2 foundries, 2 planing mills, 1 saw mill, 1 carriage and wagon factory, etc. Fairmont is noted for its rich coal fields, 100 cars being daily shipped from this point alone. Fairmont is connected with Palatine by a fine suspension bridge, which was completed in 1852 at a cost of $30,000. The town is well supplied with good water and has a good electric light plant. Its shipments consist of coal, coke, live stock, small fruits, grain, etc. Exp., U. S. Tel., W. U. Thomas Reed, postmaster.

HUNTINGTON. Situated on the Ohio river, 161 miles from Cincinnati, O., and 215 from Wheeling. Daily lines of boats run between here, Pittsburgh and Cincinnati, also boats from Huntington to local river points. It is the eastern terminus of the N. N. & M. V. R. R., and is on the direct line of the C. & O. Ry, and both of these systems, in addition to their eastern outlet, make direct connection at this point for Wheeling, over the Ohio River Railroad. The H. & B. S. R. R. is constructed to Kenova, where connection is made with the N. & W. R. R. system. This city is very favorably located, and is the judicial seat of Cabell county, and boasts of being the second largest city in the State, not only in population but in business transacted. It is growing very rapidly, already having over 12,000 inhabitants. The C. & O. railroad shops, and also the Ensign Manufacturing Company, have their respective plants located here, giving employment to 2,000 men, the monthly pay-roll of the same aggregating about $75,000. There are many manufacturing establishments, including 3 saw mills, 4 foundries, 2 planing mills, mattress and excelsior manufactory, patent plaster factory, ice factory, lounge factory, distillery, flour mill, picture frame factory and brick yard. The city is very attractive, and there are a number of handsome private residences. The houses of the mechanics betoken the fact that they are owners of them, and many are "monarchs of all they survey," through the goodly help of several progressive building and

P. WELTY & CO., WHOLESALE LIQUOR DEALERS, 1118 Main and 1121 Market St., WHEELING, W. VA.

loan associations, both local and national. The fire department is well equipped, and plans are on foot for the erection of very fine county buildings. There are several beautiful church edifices and public schools, the Marshall College (State Normal School), and a high school building which for location and construction any city might well feel proud of; several good hotels, The Florentine and the St. Nicholas being among the best in the State; 3 banks, the oldest being the Bank of Huntington. The First National has recently moved into their elegant new stone front building, a special feature being the safety deposit vaults in connection with the same. The streets of the city are now being paved with brick, and new stone curbing put down. A belt line system of street cars traverse the city, and the electric railway plant is one of the best in use. The city, and many of the stores and residences, are illuminated with electric light. Telephone service throughout the city and connecting with Guyandotte, Central City, Kenova and Ceredo. The water works plant is of the best. If "printers' ink" makes a city, then certainly Huntington is highly favored, for there are no less than 12 daily and weekly papers published, and all are doing well. Bonded debt, $123,000. Exp., Adams. Tel., W. U., N. N. & M. V. and O. R. R. R. H. M. Adams, postmaster.

Drake Charles J, wagonmaker.
Huffman Charles, saw and grist mill.
Robertson G W, General Store.
Thompson Richard, general store.

KEYSER. The county seat of Mineral county, is at the junction of New creek and the north branch of the Potomac, the latter stream affording a fine water power. It is a division station of the B. & O. R. R., and a station of the Piedmont & Cumberland R. R. It is 23 miles west of Cumberland, 215 west of Baltimore, 183 east of Parkersburgh, and 180 southeast of Wheeling. It is surrounded by beautiful scenery and has a most equable and healthful climate. In the immediate vicinity are large quarries of good limestone which are being worked to some extent, and extensive beds of iron ore. They are said to be of good quality. Within a few miles are a number of large mines of excellent steam and coking coal, accessible by both railroads. The extensive coke works on the W. Va., C. & P. are easily accessible by that railroad, of which the Piedmont & Cumberland is a part. Keyser has a large planing mill and manufactory of patent machine-made houses, run by the W. Va. Building Company, which also does a general business in lumber, sash, doors, blinds and builders' materials; a furniture factory, which is producing large quantitles of oak, poplar and maple furniture, a knitting mill, which turns out some of the best hosiery and underwear for both ladies and gentlemen, using both

Charles W. Barrick. Abstracts of Title Carefully Prepared.
NEW MARTINSVILLE, WEST VA.

cotton and woolen yarns, and one of the finest flouring mills in all this section. Another flouring mill, the Rosedale, though on the Maryland side, really belongs to the industries of Keyser. There is reason to believe that other productive industries will locate here in the near future. No better location for manufactures of wood and wool can be found, and the outlook for blast furnaces is excellent. The court house and jail are substantial brick buildings, and the high school building is unexcelled except in one or two of the cities of the State. The schools are graded, and have been brought up to a high state of efficiency. For three years past a very flourishing summer normal school has been conducted here. Two weekly newspapers, the *Mountain Echo* (Rep.), and the *Keyser Tribune* (Dem.), are published. Two express companies, the U. S. and the Adams, run delivery wagons and have offices, and daily stages run to Moorefield Burlington, Maysville and Petersburgh. There are 2 telegraph offices and 2 telephone offices, one of the latter being connected with Petersburgh, Grant county, and intermediate stations, and the other with Romney. The town has a large country trade, which might be considerably enlarged. It invites manufacturers to investigate its advantages, especially for manufactories of furniture, agricultural implements, and all other manufactures of wood, and for woolen mills. Population, 3,000.

MANNINGTON. An incorporated town of 1,200 inhabitants, located on the B. & O. R. R., in Marion county, 17 miles northeast of Fairmont, the judicial seat and nearest bank location. It is the center of the now famous Marion county oil field, recently developed and the present scene of the greatest activity in the West Virginia oil region. This field has been developed within the past fifteen months and during that time a steady stream of oil operators has been pouring into the region and an immense quantity of land has been taken up and developed. There are a large number of producing wells, those belonging to one firm alone producing 2,000 barrels per day, and the output since the developments begun has been very great. While the oil discovery and its attendant blessings, in the shape of a great influx of mechanics, laborers, etc., has caused Mannington to take on a new life, this industry is not the only resource, the town being also a shipping point for lumber and other products of the surrounding country and numbering among its manufacturing industries one of the largest tanneries in the State, a planing mill, 2 flouring mills, marble works and others of minor importance. Exp., Adams. Tel., W. U. J. M. Millan, postmaster.

Atha U S, meat market.

MARTINSBURGH. A progressive and rapidly increasing city, the judicial seat of Berkeley county, is located on the B. & O. and C.V. roads, both affording an outlet to the markets of the north, south, east and west. Washington can be reached in 1½ hours, Baltimore in 2 hours and Philadelphia and New York in 5 and 7 hours respectively. The city is one of the most beautiful in the State, with its wide streets and avenues built on either side with splendid blocks of business houses and residences. The city is supplied with water by the Holly system. The streets and houses are lighted by gas and electricity. No place in the State enjoys a better system of public and private schools and all the principal religious denominations have good churches which are well supported. The press is represented by the *Daily World* (Ind.), and the *Statesman* (Dem.), the *Independent* (Ind.), the *Herald* (Rep.), and the *Pioneer Press* (Col'd Rep.), published weekly. The erection of a $150,000 postoffice and court house has just been commenced. This is an important manufacturing point, having within its boundaries the B. & O. railroad shops, the largest distillery in West Virginia, with a mash capacity of 750 bushels per day; fertilizer works, foundry, boiler works, 3 large flour mills, several grain elevators, 3 lumber yards, sash and blind factories, brick works, 4 cigar factories, saw mills, cooperage establishments, carriage and wagon works, spoke factory, tobacco factory, etc. During the past year there have been added the Middlesex Knitting Co., giving employment to over 200 hands; the Standard Bicycle Works, a large woolen mill employing 75 hands, a furniture factory, besides several other important industries which have been located, and only await the necessary buildings. The principal streets are traversed by an electric street railway. The city is surrounded by an agricultural region the fertility of whose soil is unsurpassed, producing grain and fruits of every description in abundance; and this, with the wealth of timber, coal, iron, limestone, clays, its healthful climate and excellent transportation facilities, make it one of the most inviting localities in the State. The most liberal inducemens are held out to the capitalist and manufacturer. Population, 9,000. Exp., Am. and U. S. Tel. W. U. W. H. H. Flick, postmaster.

☞ ESTABLISHED IN 1845.

THE WILEN FURNITURE HOUSE

Is the oldest house in the State of West Virginia; run under the same name for over 45 years. Buy here—you will not be deceived.

We carry the finest line of goods to be found anywhere, and at the very lowest figures. We will not be undersold by any house in the larger cities.

CARPETS.—Our Carpet department is now being replenished with a full line of new patterns, which will be sold at the very lowest figures. Give me a call. I will please you in style, finish and price.

UNDERTAKING.—The finest work done in this line in the county.

Frazier & Co, general store.
Stutler Arthur, saw mill.
Stutler Bert, barber.
Stutler I, physician.
Stutler Joseph, blacksmith.

MORGANTOWN. About twenty miles below Fairmont, in Monongalia county, of which it is the judicial seat, on the Fairmont, Morgontown & Pittsburgh road, is the seat of the State University, and is one of the most thriving towns in West Virginia, being favorably situated for a manufacturing point. It is the present head of navigation on the Monongahela river, which is slacked to this point from Pittsburgh. Railroad connections will soon be made with Uniontown, Pa., giving the Baltimore & Ohio a through line from Fairmont to Pittsburgh. The road to Morgantown is on the east bank of the river and penetrates one of the richest coal fields in the country. Five big veins of bituminous coal, with a number of smaller ones, present their outcrop along the valley. They vary in thickness from five to eleven feet, and the coal is excellent for cokeing purposes. Natural gas is found in abundance, and this fuel is used in Morgantown, giving the place a great advantage as a manufacturing point. It already has water works, and is growing rapidly. The West Virginia & Pennsylvania road has been surveyed to this place, and will be built in the near future. A branch road is also to be built to the coke fields of Preston county and to some point on the main line of the Baltimore & Ohio road east of Grafton. Limestone, potters' and fire-clay are abundant throughout Monongalia county, which is also a rich agricultural region. It has 2 banks, flour mills, furniture factories, brick and tile works and 2 weekly newspapers. Exp., U. S. Tel., W. U. James A. Davis, postmaster.

Anderson Thomas W, real estate and ins.

Kincaid Perry, General Store.

MOUND. A postoffice on the K. & M. R. R., in Kanawha county, 5 miles northwest of Cherleston, the judicial seat and banking point. Exp. U. S.

MOUNDSVILLE. This city, the county seat of Marshall county, is situated in one of the most healthful and picturesque sections of the State. Located on the Ohio river, the B. & O. R. R. and the O. R. R. R., and 11 miles south of Wheeling. It is easily accessible by rail and water, and enjoys shipping facilities of which any metropolis might be proud. Aside from its importance as the judicial seat of Marshall county, the location of the State Penitentiary, and the center of a rich agricultural district, it already enjoys the distinction of being the chief manufacturing city outside of Wheeling in Northwest Virginia. The sterling worth of its products is attested by their enormous demand from all parts of the United States. Among its numerous industries may be mentioned 2 planing mills, a tannery, grain cradle works, a bent wood factory, 3 flour and feed mills, wagon works, 2 brick yards, a fly-net, bridle and whip factory, a foundry and machine shop, coal shafts, a nursery, an electric light plant, two building and loan associations, and numerous other enterprises. A mining and manufacturing company has recently been organized, which has secured large tracts of land, and which offers rare inducements to manufacturers, capitalists and business men. These desirable agricultural and mineral lands are laid off in city lots and manufacturing sites, and capital, wide awake to every paying enterprise, has not been slow to invest. Negotiations have just been completed with the Fostoria Glass Company of Ohio, one of the largest of its kind in the country, employing 350 workmen, to locate here. The Moundsville Mill Supply Company has also just been established, as has also the Mound City Brick and Tile Company, with a capacity of 25,000 bricks per day. Moundsville's 7 churches attest the devout spirit of the citizens. It has an excellent graded school, a public hall, a flourishing bank and numerous hotels. The press is represented by the *Herald*, a live weekly. Neither is Moundsville devoid of interest to the antiquarian, for the Mammoth Mound, known the world over as the largest artificial mound in existence, is located here. The mound is 1,300 feet in circumference at the base, 79 feet high, and in cubic contents is equal to the third pyramid of Egypt. An excavation in 1838 revealed in the vaults and sepulchres, with which the mound abounds, skeletons, beads, sea shells, numerous copper ornaments, and a stone on which is inscribed hieroglyphics which have never been deciphered. Moundsville has a fine court house, paved streets, is lighted by electricity, and can compete with the world in cheap fuel, cheap building material, cheap transportation and cheap living. Moundsville is the location of the Ohio Valley Prohibition Assembly and Camp Grounds, having a hall whose seating capacity is 6,000. It also has one of the most beautiful parks in the State, 36 acres in extent, with 160 cosy, comfortable cottages for summer visitors. The cheapness of fuel, the abundance of water, the excellent shipping facilities, together with the low rate of freight, all combine to give Moundsville advantages enjoyed by but few cities. Population, 3,000. Exp., U. S. and Adams. Thomas G. Hammond, postmaster.

NEW HOPE. A country postoffice in Mercer county, 5 miles west of Princeton, the judicial seat and banking point, and 6 from Ada, the nearest shipping point. A. H. Carr, postmaster and physician.

NEW MARTINSVILLE. The judicial seat of Wetzel county, is a thriving, incorporated town of 2,000 inhabitants, located on the Ohio river and the O. R. R. R., 38 miles south of Wheeling. Situated in the broad and fertile valley of the Ohio, it is surrounded by an agricultural region, the richness of whose soil is unsurpassed. Bounteous crops are produced from year to year without the aid of fertilizers. Fruit of almost every kind, that will vie in size, flavor, color and texture with that of any climate, is produced in abundance. The hilly country back from the river, which has been brought to a high state of cultivation by the thrifty German population, produces large crops of the cereals, and is admirably adapted to grazing purposes. This town has never experienced a boom, and consequently real estate has never commanded fancy prices. Hill farms will average in price from $15 to $30 per acre, while bottom lands command prices ranging from $60 to $150. The business houses of the town are well built, substantial structures, while the residences are pretty, cozy and comfortable. Five churches of the Methodist, Episcopal, Catholic and Baptist denominations are sustained. The press is represented by the *Wetzel Democrat* and the *Wetzel Republican*, live and enterprising weeklies. The town has a public hall, an excellent public school and a flourishing bank. The business interests comprise 2 planing mills, a stave factory, a bucket handle factory, a tannery, 2 flouring mills, a brick yard, nursery and other enterprises. The dairy interests are

HOT WATER, Heating, Sanitary Plumbing, Steam, Water, GAS and FACTORY Supplies. Charles H. Turner, 306 and 308 Juliana St., Parkersburg, W. Va.

extensive, and lumber of all kinds, embracing the finest hardwoods, is shipped. Three hotels, the Eakin House, the Brast House and the Point House, accommodate the traveling public. The inducements offered to manufacturers and investing capital generally, are of the most generous nature, and all enterprises desirous of locating here will receive from the business community of New Martinsville a hearty welcome and support. Freight rates are low on rail and river, and shipping facilities are of the best. Exp., Adams. Nicholas Bandi, postmaster.

Amos B S, physician.
Davis A A, silversmith.
Overfield J W, carpenter.
Parker C O, Constable.
Smith C C, blacksmith.

PARKERSBURGH. The second city in the State in population, commerce and manufacture, and the county seat of Wood county, is located at the confluence of the Ohio and Little Kanawha rivers, 100 miles below Wheeling. A handsome iron bridge spans the Ohio here, the longest, with one exception, in the U. S. The city has a beautiful natural location on an elevated plateau, and having an excellent fire department, is comparatively free from dan-

Bryan & Spencer, Practical Plumbers. Gas and Steam Fitting in all its Details. PARKERSBURG, W. Va.

UNDERTAKERS AND FUNERAL DIRECTORS. G. Mendel & Co.
1124 Main Street, Wheeling, West Virginia.

ger by fire or flood. The Baltimore & Ohio Railroad and the Ohio River Railroad afford ample transportation facilities, the latter having its main offices and shops at this point. Thus, the city enjoys the advantages of rail and river. A conservative estimate will place the population of Parkersburgh at 15,000, although the census reports show but slightly over 8,000. Owing to the fact that the corporation lines of the city have never been extended since its inception, and as most of its growth has been outside of these lines, it is, perhaps, double that reported by the census bureau. The prosperity of the building industry and its allied interests reflect significantly the city's growth and development. The homes of the working classes are pretty, cozy and comfortable; the residences of the wealthier citizens are spacious and elegant, and the business houses are substantial and attractive. Real estate has never commanded fancy prices, but is steadily increasing in value, enabling the working classes to own their own homes and thus materially enhancing the welfare and prosperity of the city. The banking business is transacted by the following thoroughly reliable banks: the Citizens' National Bank, the Parkerburgh National Bank, the First National Bank and the Second National Bank. But few cities of its size have ampler banking facilities, and none have sounder banks than Parkersburgh. Notwithstanding the phenomenal industrial advance, that of the educational interest has been equally great. The public schools are unsurpassed by those of any community in the country. There are six commodious public school buildings now in use, in addition to which a high school building is in course of erection that surpasses in size and architectural beauty many institutions of like character in the largest cities. Parkersburgh's postoffice and custom house building is the finest in the State, and her academy of music would be a credit to any city. The city is supplied with gas and water works, lighted by electricity, has telephone exchange, excellently paved streets, street car and carette systems and all the conveniences of a modern metropolis. Neither are religious organizations neglected, there being 13 churches, representing the leading religious denominations. Journalistic enterprise has not gone unrewarded, as is evinced by the spirit and intelligence of its public press and the generous support that is accorded thereto. The *State Journal* and the *Sentinel* (daily and weekly) are newspapers of which any city might well be proud. There is also one monthly supported, *Smith's Index*. The most extensive business interests of Parkersburgh are those of the lumber industry. The poplar, walnut, oak, cherry, and other woods with which West Virginia abounds, are manufactured into all classes of furniture, sawed lumber, etc., and shipped to every known land. The other manufacturing interests comprise oil refineries, machine shops, foundries, flour mills, tanneries, paper and pulp factories, and numerous other industries. Exp., U. S. Tel., W. U. Stowell S. Hazen, postmaster.

PARSON CITY. Jackson county. *See Frozen Camp.*

PARSONS. This beautiful little city is located on the West Virginia Central & Pittsburgh R. R., 91 miles from Cumberland and 7 from St. George, the judicial seat of Tucker county. It is the distributing point for a large section of country and is one of the most prosperous towns on the road. Lumber and live stock are shipped. James L. Poling & Co's Planing Mill is the principal industry. Fruit of all kinds and grain are produced in abundance in this section, and owing to the vast quantities of timber that abound, thousands of acres of which remain untouched, the most favorable inducements are offered to lumber and furniture factories to locate here. There are several general stores, and three hotels, the Parsons City Hotel, the Continental and the Commercial. Tel., West Va. Central. Telephone communications with adjoining towns. Population, 300. Wesley J. Pifer, postmaster.

Austin Thomas M, general store.
Barritt Wm A jr & Co, general store.
Bartlett Opha, barber.
Bright John, constable.
Brown Mrs E Taylor, milliner.
Commercial Hotel, James W Munson propr.

The Sprinkle Wood Split Pulley.

RIMS Manufactured of the Best Kiln-Dried Poplar,
SPOKES of Best Quality of White Oak, and
HUBS of Hard Maple. Bore of Hub is Elliptical.

Every Pulley a SPLIT Pulley.
No shafting to take down: this alone pays for the Pulley.
Our list is lower than any other.
They are seventy per cent. LIGHTER, thus saving seventy per cent. of freight. Every Pulley guaranteed to generate thirty to sixty per cent. more power than iron pulleys.
The fastenings do not mar the shaft.
Every Pulley PERFECTLY BALANCED.
No chances to take: every Pulley guaranteed to give satisfaction or to be returned at our expense. All are more than strong enough for the very heaviest double belt. No slipping of belts over a Wood Pulley. Our Pulleys are furnishd with one set of removable hubs, which are made interchangeable and can be fitted to any size shaft by simply changing the hubs.

SPRINKLE PULLEY CO., Manufacturers,
PENNSBORO, WEST VIRGINIA.
All Pulleys above 18 inches have Anchor Bolts. ☞ WRITE FOR PRICE LIST.

Forinash E W, carpenter.
Lowther & Meyer, Boots and Shoes.
Meaks John F, barber.
Roberts Wm, hotel and saw mill.

PIEDMONT. There is perhaps no town in the State so well adapted in every way to manufacturing purposes as Piedmont. Situated in the northwest of Mineral county, on the main line of the B. & O. R. R., at the junction of the C. & P. R. R., 5 miles west of Keyser, 220 from Baltimore and 174 from Wheeling, it is within easy reach of raw materials of every description and convenient to the Eastern markets as well. Transportation lines radiate in every direction, reducing freight rates to a minimum. Several manufacturing plants are already preparing to locate here, and its inexhaustible natural resources, coupled with its extremely favorable location, will, ere long, attract others. Capitalists, watchful of their own interests and ever responsive to the proffered opportunities of lucrative investment, will in the near future determine that Piedmont shall be the commercial heart of this bountiful region's aggregated wealth. Iron and coal veins of marvelous thickness sandwich the hills, and virgin forests stretch away for miles in every direction. The repair shops for a section of the B. & O. R. R. are located here, besides numerous manufacturing enterprises. It has a Presbyterian and 2 Methodist (North and South) churches, and 2 public schools with 450 pupils. There are 2 banks—the First National and the Davis National—and 2 weekly newspapers, the *Herald* and the *Times*. Population, 2,236. Tel., W. U. Exp., Adams. W. E. Heskitt, postmaster.

Atlantic Colliery, Atlantic & G C C Coal Co operators.
Ball Mrs Margaret A, milliner.
Bayne & Huth (Cornelius L Bayne, Ernest Huth), barbers.

POINT MOUNTAIN. A recently established postoffice in Randolph county.

POINT PLEASANT. The county seat of Mason county, is a prosperous city of 3,000 inhabitants, located on the Ohio river at its confluence with the Great Kanawha, 181 miles below Wheeling. The O. R. R. R., running from Huntington to Wheeling, as also the K. & M. R. R., from Columbus and Toledo, O., to Charleston, W. Va., both pass directly through the city. Direct communication is also had with Columbus, O., and the North over the Hocking Valley route, the railroad station being on the Ohio side—called Point Pleasant, Ohio—reached by ferry from this town. Henderson, W. Va., and Gallipolis, O., are both reached by ferry service from Point Pleasant, run by Stone Bros.; and by January 1, 1892, it is expected to have completed a horse car line to Gallipolis, to be transferred across the Ohio river on the steam ferry. The place was settled in 1775, and is now supplied with 7 churches, 2 graded schools, 1 bank, 2 hotels, and 3 weekly newspapers, the *Weekly Register*, *State Gazette* and the *Messenger*. There are 2 flour mills, 2 large boat building plants, planing and saw mill, and an electric light establishment. Exp., Adams and U. S. Tel., W. U. F. M. Whaley, postmaster.

ROMNEY. The judicial seat of Hampshire county, is one of the oldest towns in the State, having been settled about the year 1747. It was laid out by Lord Fairfax, and the original plat is still on record. It contains about thirteen hundred inhabitants, and is the terminus of the South Branch Railroad div. B. & O. R. R. The town is situated on a bluff, about 250 feet above the south branch of the Potomac. Here is located the State Institution for the Deaf, Dumb and Blind. It is well supplied with stores, and has 2 newspapers besides a paper published at the institution, and a small church paper. It has a good public school and a good preparatory school, known as the Potomac

Reymann Brewing Co.'s Bavarian Beer is the Best Beverage for Family Use. Wheeling, W. Va.

THOBURN. A recently established postoffice in Marion county.

THOMAS. Is the highest point on the W. Va. C. & P. R. R., being 3,300 feet above the level of the sea. It is a coal mining and coking town, with a population of over 1,000. There are 30 coke ovens at Thomas, 250 at Coketon, one mile below, and 150 in course of construction at the latter place. Thomas is situated at the junction of the Davis branch with the main line, and, on account of its easy accessibility, great elevation, pure air and water, picturesque scenery, lumber interests and inexhaustible coal fields, it bids fair to spring at once into a thriving city, and at the same time a noted summer resort. A first-class hotel would pay handsomely at this place. Exp., Adams. A. L. Helmick, postmaster.

Buxton & Landstreet Co, general store.
Danghenburgh J M, justice.

WEST VIRGINIA & PITTSBURGH RAILROAD.

This road runs through the central part of West Virginia. It begins at Clarksburg, where it connects with the Baltimore & Ohio Railroad, and runs to Weston, where it branches, the main line running, at present, to Sutton, and the branch to Newton, all in West Virginia. An extension of the main line is being constructed from Flatwoods to the Gauley River, and it will be, probably, continued through to Covington, Virginia; thus forming a Southern connection with the Chesapeake & Ohio Railroad.

The road traverses the best agricultural and timber sections of the State. There are a number of large lumber plants already in operation on the line, and more building. With its connections with the B. & O. R. R., the W. Va. & P. R. R. offers the very best facilities for reaching the largest commercial markets in the country. See time card.

WHEELING. Situated in the northwestern portion of West Virginia is Wheeling, the largest and most important city in the State. It now is the county seat of Ohio county, and it formerly was the capital of the State, but, some years ago, in response to a popular demand that the State capital be nearer the center of the State, the capital was removed to Charleston, where it has since remained. The settlement of Wheeling was made in the year 1769 by the brothers, Colonel Ebenezer, Jonathan and Silas Zane. At the time of its settlement it was called Zanesburg, which name it retained until about 1776, when the name was changed to Fort Henry, in honor of the fort built for its defense. About a decade later the name was again changed, this time to the one which it now bears, and which has made it famous throughout the civilized world. It is through her manufacturing interests that Wheeling has reached her present stature and acquired an enviable reputation in the commercial centers of the world. In the markets of Europe, India, South America—the Old and the New World—Wheeling nails, Wheeling glassware and Wheeling stogies are held in the highest esteem. Fortunately for the city, her industries have been and are so diversified that she is dependent on no one industry alone but profits by them all. While such diversification has not been conducive to a rapid growth along the boom lines of town development, it has given her a solid, substantial basis of prosperity which could have been attained in no other way. The growth of the city has been slow but of the most permanent character. The various waves of financial disaster which have from time to time swept over the country, have passed by her and left her unharmed, frequently almost untouched. The population of Wheeling is upwards of 40,000 souls. Her advantageous location and the extent and diversification of her manufacturing interests unite, however, to render her commercial importance greater than that of many a city of double or thrice that size. The iron and steel interests of Wheeling are the most important interests of the city. The admirable finish and superior quality, as well as the vast quantity of nails here produced, have given her the soubriquet of the "Nail City." More than

COX & MORRISON, Proprs. **WHEELING BOILER WORKS. Portable, Marine and Stationary Boilers, and all** Kinds of Heavy Sheet Iron Work. Wheeling, W. Va. See P. 5.

one-half of the cut nails manufactured west of the Alleghenies, and about one-fourth of the entire product of the country, are made within her mills. Her seven nail mills have an aggregate capital of $4,100,000. The 1,140 nail machines that are in them have an annual capacity of 2,830,000 kegs of steel nails, which find a ready market in all parts of the country, but mainly in the West and South, to which portions of the country the Ohio river furnishes her a ready and cheap method of transportation. There are no nails manufactured that command higher prices, or are more in demand, than those of the "Nail City." Three Bessemer steel plants, which produce annually 210,000 tons of soft steel, and do business on a capital of $1,200,000, are in successful operation. This steel has to a very great extent displaced wrought iron for a variety of purposes. The only establishment making steel gas and steam pipe (the Riverside Iron Works) is located within her limits. The next industry in importance is the glass industry, which employs a capital of upwards of $1,000,000 for its successful prosecution, and furnishes employment to several thousand highly skilled and highly paid workmen. Wheeling glassware enjoys an enviable reputation in all the leading markets of the country, and large quantities are shipped to South American States and also to Germany. The business done in manufactured tobacco and cigars is enormous. "Wheeling Stogies" are famous the world over, and the "Mail Pouch" and "Red Letter" brands of smoking tobacco are on sale at every crossroads store from the lakes to the gulf. There are forty-four firms in this city engaged in the manufacture of cigars, and the interest furnishes employment to a large number of workmen. The three potteries in the city have an aggregate capital stock of about $700,000 and furnish employment to about a thousand hands. There are two large breweries in the city. The larger, that of the Reyman Brewing Company, having a daily output of 2,000 kegs of lager beer. The Schmulbach Brewing Company falls but a trifle short of having an equal output. There are innumerable smaller-sized industries, such as foundries, boiler works, machine shops, carriage and wagon works, tack and hinge factories, canning establishments, planing mills, box factories and other industrial plants, whose aggregate capital runs into the millions, and which furnish employment to several thousand skilled workmen and put large amounts of money into direct weekly circulation. Wheeling is on the lines of the Baltimore & Ohio, Ohio River, and Pittsburgh, Cincinnati, Chicago & St Louis R. Rs. The Wheeling Bridge and Terminal Railway Company connects it also with the Cleveland & Pittsburgh, the Wheeling & Lake Erie and the Cleveland, Wheeling & Lorain railroads. The Ohio river is bridged at the upper end of the city by the Terminal Railway Company's bridge, which was built for the purpose of connecting all the railway lines which enter Wheeling and Martin's Ferry, and also to furnish terminal and switching facilities for them. The system has three tunnels, a union passenger station, and will have 20 miles of track and siding, in addition to the bridge before referred to, which is one of the finest in the country and a triumph of engineering skill. Wheeling Island, which is a portion of the city, is connected with the central part of the city by two bridges over which horse car and electric street railways are operated. Four express companies maintain offices within the city. They are the Adams, B. & O., American and the United States. In addition to the railway and express facilities an enormous freight traffic is carried on with the south and west by means of the Ohio river, which, connecting as it does with the vast Mississippi system, of which it is itself a valuable integral part, furnishes a cheap and reliable mode of transportation to distant cities that would otherwise be inaccessible. THE VERY BEST IN THE MARKET.

THE LIFE RATE ENDOWMENT

Plan of the **PENN** presents more advantages than any other plan of insurance, because it gives the most protection for the least amount of money; because the accumulations after the fifth year can be used to pay the premiums, giving a fund to provide for a stringency in money matters to which we all are liable, and because the face of the policy is payable in cash during our life, when most liable to be needed.

THE TRUST CERTIFICATE

Is issued only by the **Penn Mutual Life Insurance Company,** at a saving of 30 per cent. on the usual rates of insurance.

Best Educational Advantages. Expenses moderate. Free Scholarships to aid worthy students. Two Courses of Study in College. Classical, English, Normal and Business Courses in Academy.

MARIETTA COLLEGE.

THE STANDARD OF ADMISSION corresponds to the requirements of the best Colleges. A liberal portion of the work is ELECTIVE, giving free choice to students to follow out such lines in Science, Literature, Philosophy, Mathematics, or History, as their tastes, aptitude, and future occupation make desirable.

THE COLLEGE LIBRARIES, open daily, contain about 43,000 well-selected books.

Experience has shown that young men of good character and ability are very seldom obliged to leave Marietta College for lack of means.

The College is Christian but non-sectarian.

MARIETTA ACADEMY.

A CLASSICAL COURSE in Latin, Greek, Mathematics, Physics, History, and other branches especially designed to prepare for College.

A PHILOSOPHICAL COURSE, substituting German for Greek.

AN ENGLISH COURSE for those who do not wish to enter College.

Special arrangements in College and Academy for GRADUATES OF HIGH SCHOOLS.

MARIETTA BUSINESS COLLEGE.

Embraces all the essentials of a Thorough Business Education—Bookkeeping, Shorthand, Typewriting, etc.

Marietta is a City of refinement, literary culture, and pleasant homes, and offers unusual social advantages to young men attending College. It is EASY OF ACCESS by steamers on the Ohio and Muskingum Rivers, and by the Baltimore & Ohio, the Ohio River, the C. & M., the T. & O. C. Ex., and the Z. & O. Railroads.

For Catalogues and Information, address the Librarian.

MOUNT DE SALES
Academy of the Visitation,
CATONSVILLE, MD.

This Institution, under the charge of the Sisters of the Visitation, is situated near Baltimore, and about one mile from Catonsville, and is unsurpassed for beauty of location and healthiness. It is surrounded by extensive grounds, a portion of which affords ample space for the sports and exercises of pupils; the remainder supplies the table with an abundance of fresh vegetables of all kinds in their season, and also suffices to provide for winter use.

An Experienced Corps of Teachers

who keep up with the progress of the present time, direct a course of study which entitles the Sisters to claim justly for their Academy a position second to none in the country.

The Scientific Department

is furnished with a fine apparatus of the most improved and recent make.

The Art Room

is presided over by Sisters who devoted themselves for years to cultivate their talent in the conservatories of New York, Boston and Baltimore, and study is rendered attractive to pupils by the method pursued. The success which has attended the efforts of those conducting the Music and French Classes is well known, and it has obtained for them a flattering reputation.

TERMS:

Board, Tuition, Washing, Mending, Etc., Etc., $250 per Annum.

WHEELING CORRUGATING CO.,

WHEELING, W. VA., U. S. A.

Send for Illustrated Catalogue and Discounts.

WHEELING CORRUGATING CO.,

MANUFACTURERS OF

METAL ROOFINGS,

SIDINGS AND CEILINGS.

We desire to call attention to the quality of the Roofings, Sidings and Ceilings manufactured by us. We use the best material in their manufacture and guarantee them to be the equal of any that are made; being the largest manufacturers in this line, we carry the largest stock of finished and unfinished materials, and therefore can supply your wants with the least possible delay.

We have direct connection with the following railroads: Pittsburgh, Cincinnati, Chicago & St. Louis; the Pennsylvania Company's Lines, including the Cleveland & Pittsburgh, and Pittsburgh, Ft. Wayne & Chicago; The Wheeling & Lake Erie; The Ohio River Railway, connecting with the Chesapeake & Ohio, the Cleveland, Lorain & Wheeling and the Baltimore & Ohio.

We also have the advantage of river transportation to the South and Southwest and to Missouri River points, transferring at St. Louis.

We ask for your trade on account of the quality of our goods and our ability to give you prompt shipment, and with a desire to serve you in a manner that will be to our mutual advantage.

Yours Respectfully,

WHEELING CORRUGATING COMPANY,

WHEELING, W. VA., U. S. A.

Harness Sewing Machines

THE NEW STANDARD LOCK-STITCH WAX-THREAD

Harness Sewing Machine.

The only machine sold in the United States which, with Waxed Thread, makes the Double-Thread Lock-Stitch, alike on both sides, and pronounced by some of the best harness manufacturers in the United States, "EQUAL TO HAND SEWING."

Send for samples of work, Catalogue and testimonials.

JOHN O'FLAHERTY,

CAUTION.

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting moneys in advance. *Before signing an order, see that it has the name of R. L. POLK & CO. printed thereon.* We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertisements or subscriptions.

COR. VIRGINIA AND ULYSSES STS.,

PITTSBURGH, - PA.

JOSEPH B. HALL, Architect, Office, 20th and Market Sts., Wheeling, - West Virginia.

CUMBERLAND, MD., DEPARTMENT.

CUMBERLAND, MD. Is situated on the North Branch of the Potomac, 384 miles from New York, 290 from Philadelphia, 178 from Baltimore, 149 from Pittsburgh and 201 from Wheeling. Its importance as a commercial and manufacturing point for West Virginia is such as to demand the insertion of this sketch. It is the seat of Allegany county, was settled in 1754, incorporated as a town in 1805 and as a city in 1856. It is the largest city on the B. & O. R. R. between Washington and the Ohio river, and the second city in population and importance in the State of Maryland. The following lines of railroad render it accessible from every direction: Baltimore & Ohio and its Pittsburgh (or Connellsville) branch, the George's Creek & Cumberland, the Cumberland & Pennsylvania with its Elkhart branch, and the West Virginia Central. It is impossible, in so brief a sketch as the present must necessarily be, to speak in detail of the industries here represented, but among the substantial lines of business which are steadily growing in capacity, in wealth and in importance may be mentioned the following: Iron and steel works, 2 glass factories, 2 large tanneries, furniture factories, flour mills, planing mills, foundries, distilleries, breweries, rolling mills, coal and lumber companies and others too numerous to mention. Its banks are sound and thoroughly reliable. Although the industrial advance has been great, still its educational interests have kept pace. No expense has been spared in perfecting and developing a system of schools, in addition to which a number of scholastic institutions of higher grade enjoy a generous and hearty support. Neither are religious organizations neglected, for its 18 beautiful churches attest the devout spirit of her citizens. Journalistic enterprise has not gone unrewarded, as is evinced by the spirit and intelligence of its public press and the generous support that is accorded thereto. The *News* and the *Times* are live, enterprising dailies and are ably edited. In addition to these a number of weeklies are issued.

DAILY NEWS CO. (*See p 597.*)

THE DAILY TIMES.

PUBLISHED EVERY AFTERNOON BUT SUNDAY.

The Times is the leading Democratic Daily of Western Maryland, and is the best all round Newspaper in the State, outside of Baltimore. Fully equipped with the regular news service,and all the special features of the American Press Association, an experienced and competent corps of correspondents, not only at points adjacent to Cumberland, but in all the leading centres of the country, and in direct telegraphic communication with Press Bulletin Association of New York, it is a Newspaper of which the people of Cumberland are proud.

The official organ of the Democratic party, its editorial utterances are fearless and bold in the support of that party. It is as the paper of the people, however, that the Times has won, and means to keep, its position at the head of Western Maryland journalism.

THE ALLEGANIAN.

PUBLISHED EVERY THURSDAY MORNING.

The Alleganian is the oldest and most complete Weekly Paper in Allegany County. It is the only Democratic Weekly in the County, and shares the honor with the Times of being the exponent of those principles which have made the Democratic party invincible. This paper is printed at the Times office every Thursday, and is equal in size to the Times, which it rivals in excellence. In addition to all the latest news, at home and abroad, it contains the Cumberland Coal Report and the Cumberland Markets. The price at which the Alleganian is issued, one dollar per year in advance, brings it within the reach of all classes, and it has a subscription list that will compare favorably with most of the weeklies in point of numbers, and surpasses them all in the number of farmers and well-to-do purchasers who are on its list.

J. W. AVIRETT, Publisher,

CUMBERLAND, MARYLAND.

West Virginia Central & Pittsburgh

RAILWAY CO.

Cumberland, Md., to Belington, W. Va.

BRANCHES:

SHAW TO MINEVILLE,
HARRISON TO ELK GARDEN,
THOMAS TO DAVIS,
ELKINS TO BEVERLY.

The road opens up three immense coal fields, viz: "Elk Garden," or George's Creek Big Vein; "Upper Potomac," or Davis Vein; "Roaring Creek," or Pittsburgh Vein.

It passes through and opens to market thousands of acres of the best timber land in West Virginia, of almost every merchantable kind, including Walnut, Cherry, Ash, Oak, Hemlock, Spruce, Etc.

The coke manufactured from the Davis Vein of coal is unsurpassed, and equal to the best standard Connellsville.

Splendid grazing land at very low figures.

GOOD HUNTING AND FISHING.

Connections at Cumberland, Balto & Ohio R. R., Pennsylvania R. R. and Ches. & Ohio Canal. At State Line, in Monongalia Co., W. Va. (through Belington connection), Balto. & Ohio R. R.; Pennsylvania Railroad; New York Central R. R.

THE DAILY NEWS,

CUMBERLAND, MD.

DO YOU WISH ?

To save money and patience?
Gain time and satisfaction?
Get the best class of printing at rates consistent with best material and best workmanship?

MEDICAL AND SURGICAL REGISTER

OF THE

UNITED STATES.

The second edition, issued February, 1890, contains the names of over **100,000 PHYSICIANS** IN THE UNITED STATES, arranged alphabetically, also arranged by States and Cities, showing school practiced, date and college of graduation, and postoffice address.

List of Medical Colleges, Medical Societies, Hospitals, Sanitariums, Asylums, Mineral Springs, Boards of Health, Medical Journals, Medical Departments U. S., Army, Navy and Marine Hospital Service, and Pension Departments.

It is the only National Directory of Physicians published, and if you wish a work of the kind for reference, or desire to circularize the profession, you *cannot* procure as complete and reliable a list from any other source.

A NEW EDITION WILL BE PUBLISHED IN 1892.

The American Land and Title Register ASSOCIATION

Is an Association of Attorneys, with representatives in all parts of the United States and Canada; its business is that of perfecting titles to real estate, finding lost or unknown heirs, procuring evidence, foreclosing mortgages and other real estate litigation. All parties having or claiming an interest in realty in the United States or Canada, either for themselves or as heirs of such owners, and who wish to enforce said claims, will do well to correspond with us. Many interests supposed by the owners thereof to be worthless, are very valuable, and large sums may be realized from them, either through recovery by law, or compromise with the adverse claimants.

A LIST OF COMPETENT ATTORNEYS IN ALL PARTS OF THE UNITED STATES AND CANADA FURNISHED FREE ON APPLICATION.

For the benefit of mortgagees and those wishing to invest, we will furnish, through our bureau of information, unprejudiced valuations on Real Estate in all parts of the country.

Investments made and loans carefully placed, on conservative valuations, for non-residents.

We also publish the AMERICAN LAND AND TITLE REGISTER, issued monthly, giving the names of hundreds of people who are wanted by us, or by heirs-at-law and owners of valuable outstanding interests in realty, who offer a stated reward for the finding or locating of each person so named. This paper also contains our list of attorneys.

NO CHARGE MADE TO SUBSCRIBERS FOR INSERTION OF NAMES OF PERSONS WANTED UNLESS WE ARE SUCCESSFUL IN FINDING THEM.

Subscription Price, $3.00 per Year.

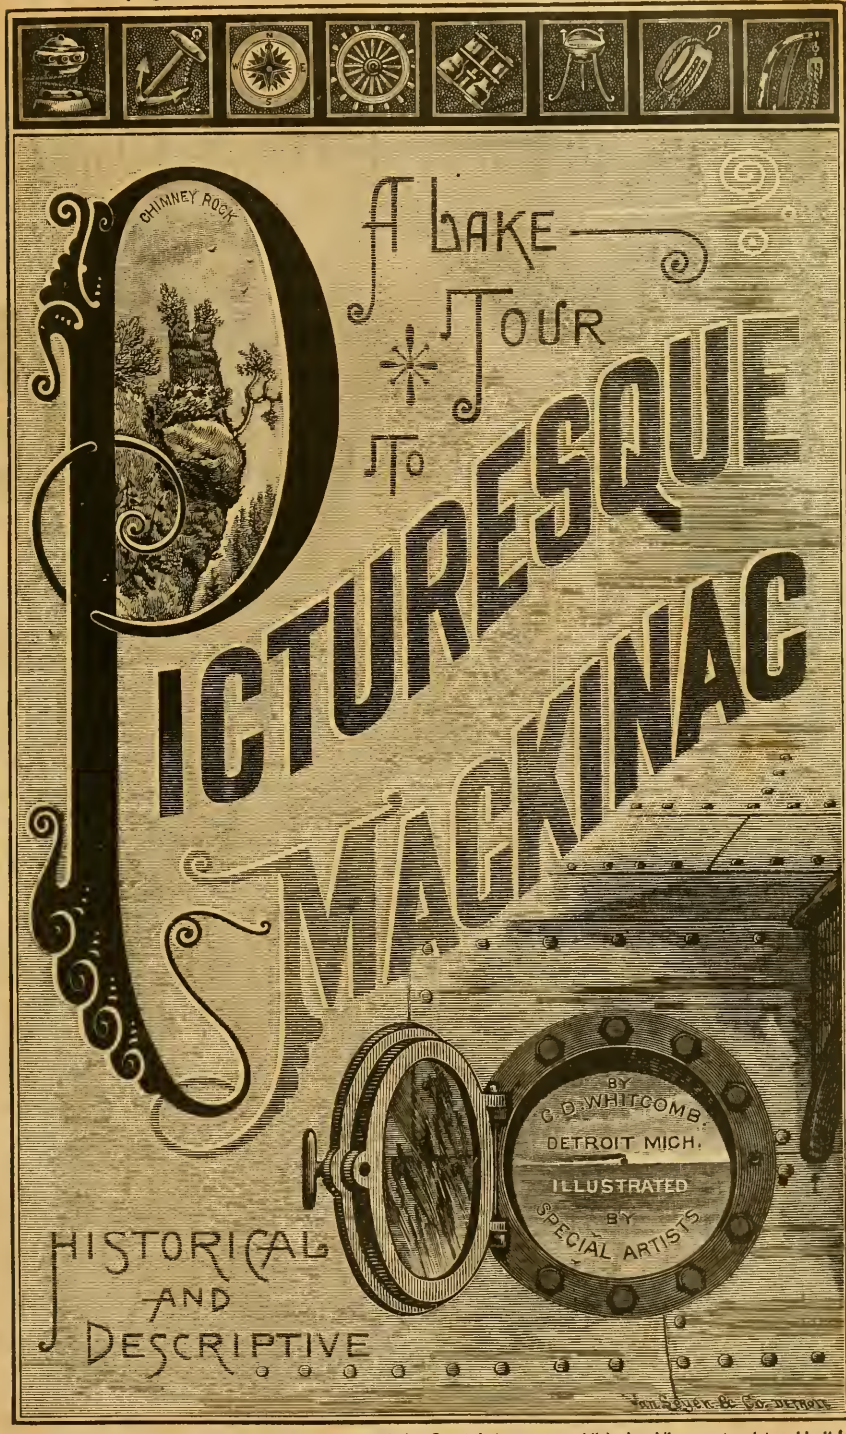
TELEPHONE 889. **MARTIN'S FERRY, OHIO.**

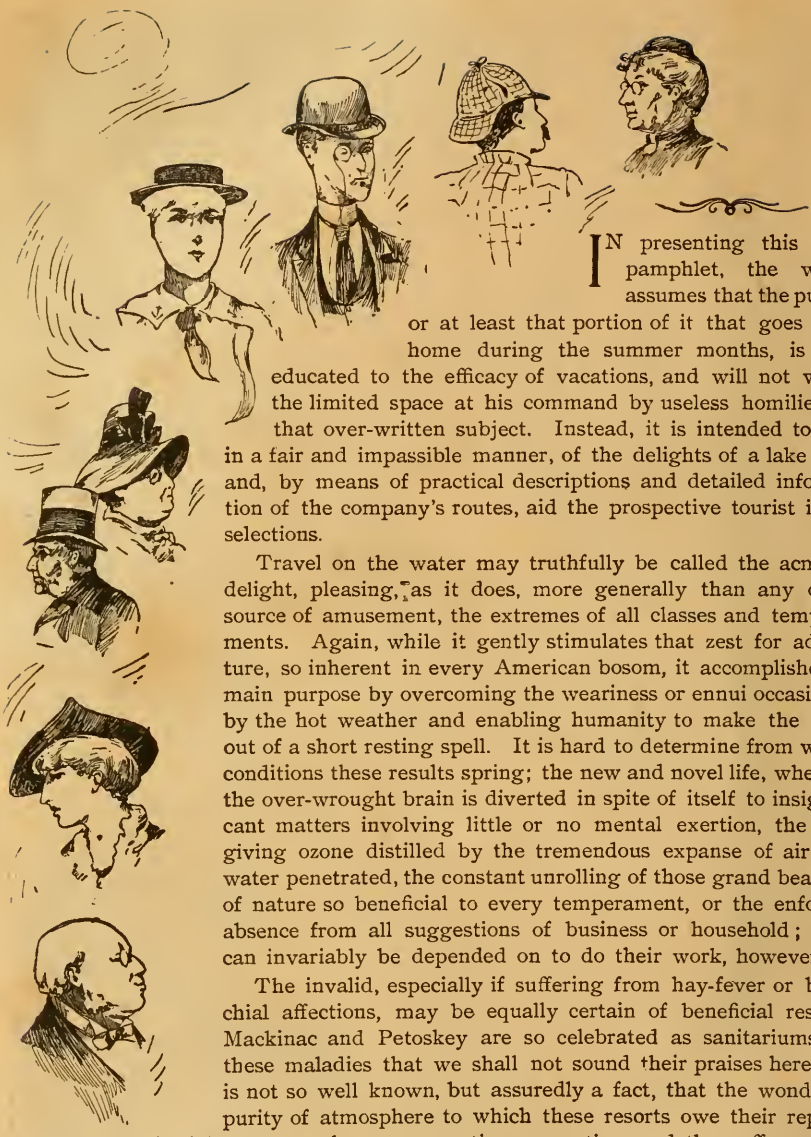
The story of Picturesque Mackinac has caused thousands of strangers to visit our Northern Lakes. Its truthful pictures by both pen and pencil excite wonder and admiration. The original design, embracing both illustrative and typographical features, has recently been much improved, and the revised edition, now in press,



A synopsis of the book, under title of "Midsummer Voyages on Northern Seas," containing additional routes and rates, mailed free of charge, on application.

A copy of the work will be forwarded on receipt of 5 cents in stamps to pay postage.

will certainly prove the most powerful exponent of the Great Lakes ever published, while as a tourist guide it is unrivaled, as it both interests and instructs. Address **E. B. WHITCOMB, DETROIT, MICH.**



IN presenting this little pamphlet, the writer assumes that the public, or at least that portion of it that goes from home during the summer months, is well educated to the efficacy of vacations, and will not waste the limited space at his command by useless homilies on that over-written subject. Instead, it is intended to tell, in a fair and impassible manner, of the delights of a lake trip, and, by means of practical descriptions and detailed information of the company's routes, aid the prospective tourist in his selections.

Travel on the water may truthfully be called the acme of delight, pleasing, as it does, more generally than any other source of amusement, the extremes of all classes and temperaments. Again, while it gently stimulates that zest for adventure, so inherent in every American bosom, it accomplishes its main purpose by overcoming the weariness or ennui occasioned by the hot weather and enabling humanity to make the most out of a short resting spell. It is hard to determine from which conditions these results spring; the new and novel life, whereby the over-wrought brain is diverted in spite of itself to insignificant matters involving little or no mental exertion, the life-giving ozone distilled by the tremendous expanse of air and water penetrated, the constant unrolling of those grand beauties of nature so beneficial to every temperament, or the enforced absence from all suggestions of business or household; they can invariably be depended on to do their work, however.

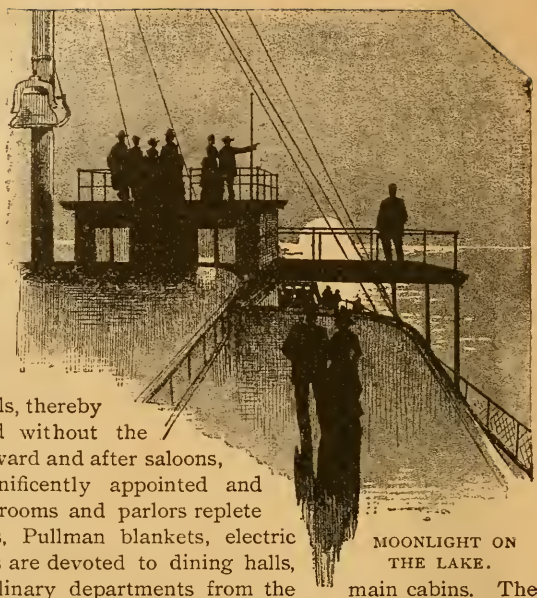
The invalid, especially if suffering from hay-fever or bronchial affections, may be equally certain of beneficial results. Mackinac and Petoskey are so celebrated as sanitariums for these maladies that we shall not sound their praises here. It is not so well known, but assuredly a fact, that the wonderful purity of atmosphere to which these resorts owe their reputation, gives to the lake voyage the same curative properties, and the sufferer may embark with certainty of being so benefited in the outset that his trip will be thoroughly enjoyable.

SOLID COMFORT EN ROUTE

IS an expression full of meaning to the experienced traveler; suggesting that a pleasant journey may have much to do with subsequent enjoyments. The company has considered it so, and always shapes its policy so as to anticipate every want of its patrons. Started in 1850 with the parent route between Detroit and Cleveland, its capital now exceeds a million dollars, and it owns a fleet of

MIDNIGHT ON LAKE ERIE.

five steamers, the largest, swiftest and most luxurious on fresh waters. The company builds none but steel vessels of the strongest pattern, thus securing, with the addition of sufficient watertight compartments, practical indestructibility.



MOONLIGHT ON THE LAKE.

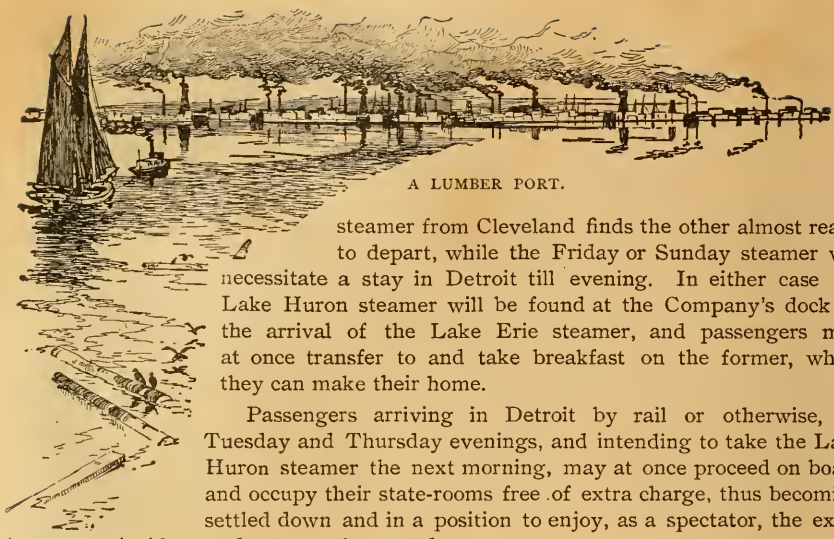
While all the newest marine ideas of real merit are invariably made use of, the policy of the management is well defined in the uniformity of general design. The steamers are roomy side-wheelers, propelled by the Clyde patterned feathering wheels, thereby developing a marvelous speed without the slightest jar or noise. Their forward and after saloons, of solid mahogany, are magnificently appointed and tastefully decorated, and their rooms and parlors replete with wire and hair mattresses, Pullman blankets, electric lights, etc. The lower saloons are devoted to dining halls, which entirely separate the culinary departments from the main cabins. The cuisine, which is equal to that of any first-class hotel, includes all the luxuries of the season, and the price charged barely meets the outlay. In fact, it may not be egotistical to say that the Detroit and Cleveland Steam Navigation Co. offers to persons of fastidious tastes the only solid satisfaction to be found in inland travel.

THE LAKE ERIE DIVISION.

BETWEEN Detroit and Cleveland may be called the main stem of the company's lines. Operated between two large cities, a sufficiently steady patronage is received to warrant the best of service, and to this end two mammoth sister ships have just been built. Their extraordinary size and grandeur has placed the route in the front rank of that comparatively small array of trunk lines to which travelers of experience look forward with pleasant anticipations. We may describe the new City of Detroit, the latest addition, as being 300 feet long by 72 feet wide and 16 feet molded depth, with hull divided into nine water-tight compartments. The boilers are four in number, and carry 110 lbs. of steam. The engine is a compound beam of 2700 horse-power. The grand saloon is of solid mahogany, and contains a double tier of state-rooms connected by a broad gallery. It is 240 feet in length, and its dome rises 20 feet overhead. There are over 140 state-rooms and parlors, each lighted by an electric lamp. The City of Cleveland is similar in every respect. A steamer leaves either city late in the evening and arrives at her destination long before breakfast, making connections with all arriving and departing trains, and forming by far the shortest and cheapest as well as the most delightful route between many far distant cities. Steady travelers, usually confined to the hot, dusty, noisy rail car, always avail themselves of the charming quiet, cool fresh air and luxury of a full night's rest afforded by this water route. The Sunday night trips, from June to September, are very popular and have proved a great convenience.

Passengers intending to continue their voyage on the steamers of the Lake Huron Division may so plan their departure from Cleveland as to make direct connections at Detroit, or have a day for sight-seeing. The Tuesday or Thursday

BIRD'S EYE VIEW LAKE HURON DIVISION, DETROIT AND CLEVELAND STEAM NAVIGATION COMPANY.



A LUMBER PORT.

steamer from Cleveland finds the other almost ready to depart, while the Friday or Sunday steamer will necessitate a stay in Detroit till evening. In either case the Lake Huron steamer will be found at the Company's dock on the arrival of the Lake Erie steamer, and passengers may at once transfer to and take breakfast on the former, which they can make their home.

Passengers arriving in Detroit by rail or otherwise, on Tuesday and Thursday evenings, and intending to take the Lake Huron steamer the next morning, may at once proceed on board and occupy their state-rooms free of extra charge, thus becoming settled down and in a position to enjoy, as a spectator, the exciting scenes incident to departure the next day.

THE LAKE HURON DIVISION

EXTENDS from Detroit to Mackinac Island on the Straits of Mackinac, a distance of 350 miles, mostly through Lake Huron. From Detroit to Port Huron, at the foot of the lake, the scenery is most charming, embracing the headwaters of the Detroit River, the placid Lake St. Clair, the far-famed Government ship canal, the famous St. Clair Flats fishing and shooting ground and the majestic St. Clair River. From Port Huron, all suggestion of land disappears on the starboard bow, and only shows faintly on the port or American side. Occasionally, when the steamer approaches a way port, the passengers have time to gather some ideas of the characteristics and occupations of the inhabitants of this purely lumber region, but for the most part of the twenty-four hours spent on Lake Huron, they will experience the sensation of being in midlake.

Considerable interest attaches to many way ports because of their note as camping or resorting spots. At St. Clair or Port Huron clubs are constantly located from July to September, and at Oscoda, Alpena, Cheboygan and St. Ignace bodies of hardy men may frequently be seen embarking or debarking. Those leaving the steamer are making for some inland lake or stream; the others need naught but the trophies of their skill to tell of their whereabouts during the preceding two weeks. In fact, the whole of the country surrounding Mackinac offers endless attractions to the adventurous. Well-stocked rivers and lakes abound, and the interminable forest is still overrun with furred and feathered creatures.

After touching at Mackinac, the steamers cross to the freight terminus of the route at St. Ignace. This occupies from four to six hours, and those who wish to return at once can, without laying over, see considerable of the main points of interest at the famous National Park, if they engage one of the charioteers for a drive.

This delightful round trip of 920 miles from Cleveland or 700 miles from Detroit occupies 4½ days from the former or 2¾ days from the latter point. It costs but a trifle more than $4.00 per day all told, and at that price is most emphatically within the reach of all. You cannot go anywhere and compass so much enjoyment and solid comfort by the way. A summer trip should be planned to get all the quiet and fresh

ARCH ROCK, FROM THE BEACH.

air possible. Such complete relief is only found by taking a water trip, where the scenery is varied and attractive, and there is ample time for a good look at every interesting object.

THE COST OF A ROUND TRIP

CANNOT be intelligently shown without some explanation. By the company's advanced system, meals and berths are not included in the price of a ticket, and patrons are at liberty to provide for themselves if they so desire. Berths are in rooms, and cost $1.00 for the upper or $1.50 for the lower, on each steamer, no matter if the trip be one or two nights. The whole room accommodates three persons and costs $2.50. Meals cost 50 cents each and may be estimated by the time card. These expenses are invariable, except for children under five, when the meals are 25 cents. Our table of costs is not guaranteed, but the figures are more likely to fall below than rise above the estimate.

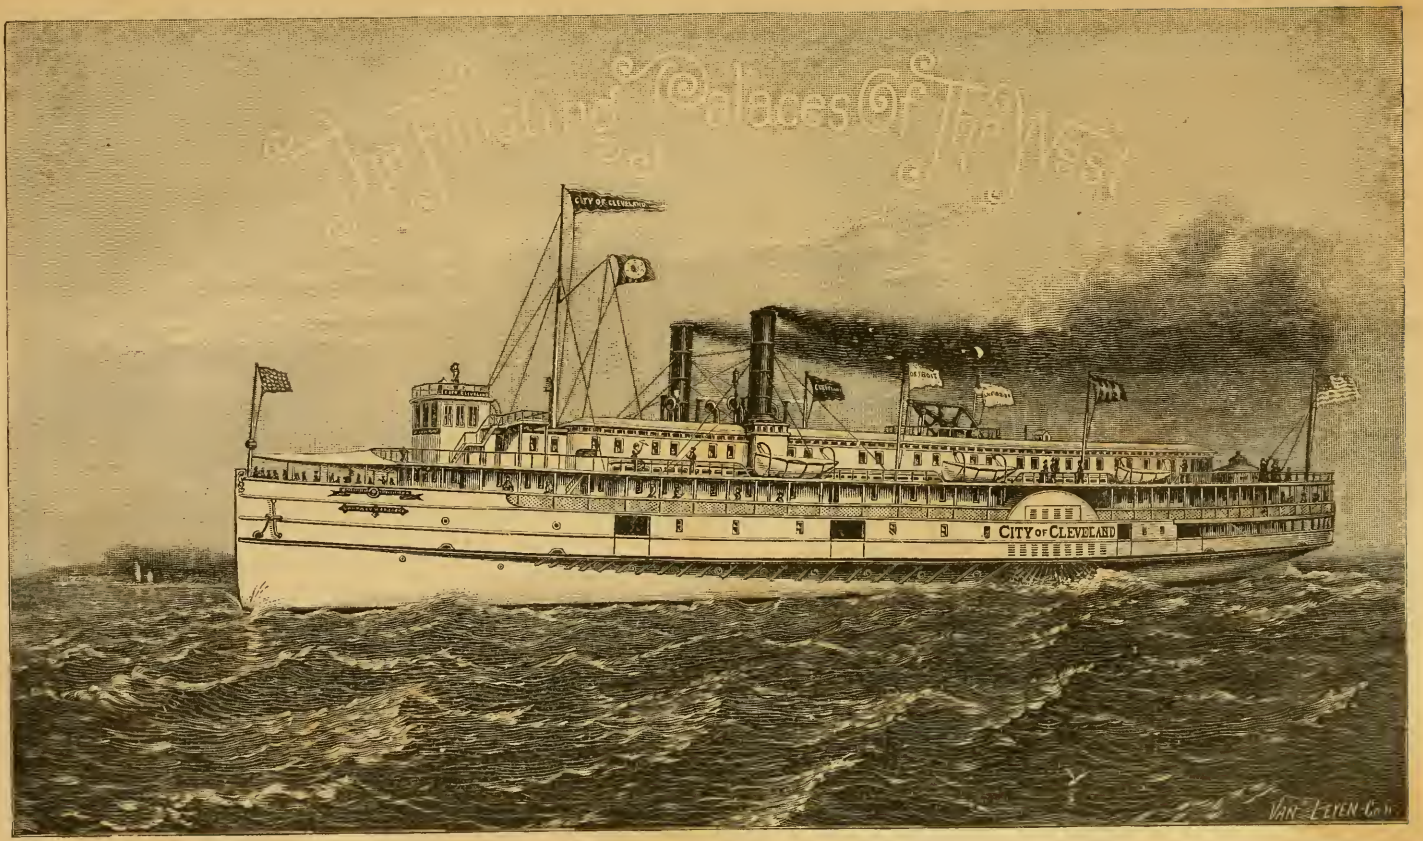
	FROM CLEVELAND.	FROM DETROIT.
Transportation	$ 9.00	$ 7.00
Meals	5.00	4.00
An upper berth for the trip	4.00	2.00
Total with upper berth	$18.00	$13.00
Extra for a lower berth	2.00	1.00
Total with lower berth	$20.00	$14.00
Two persons in one room	38.00	27.00
Third person, add transportation and meals	14.00	11.00
Total cost, three persons in one room	$52.00	$38.00

Only the transportation is purchased in a through ticket. Meals and berths are arranged for exclusively by the company.

MACKINAC ISLAND.

THE rockgirt, fairy isle, sitting like an emerald gem in the clear, pellucid wave, rises majestically from the crystal waters, which cover but cannot conceal the glistening, white pebbly depths beneath. It is the central point of the three great lakes. It knows no land breeze, hence the winds are always cool and refreshing; they never cease flowing. Its area is over two thousand acres, of which the national park and military reservation comprise about nine hundred. The natural scenery is unsurpassed. Nature seems to have exhausted herself in the manifold objects of interest which meet the eye in every direction. The lover of Mother Earth will hardly grow weary of wandering through its shaded glens, and climbing over its rugged rocks, each day bringing to light some new object of beauty and interest. Longfellow, in his poem of "Hiawatha," has put into English verse some of its wild Indian legends, which people every rock and glen with spectral habitants. If the poetic muses are ever to have a new Parnassus in America, they should certainly fix on Mackinac Island. Hygeia, too, should place her temple here, for it is one of the purest, dryest, clearest and most healthful of atmospheres.

Nothing can exceed the beauty of this island. It is a mass of calcareous rock, rising from the bed of Lake Huron, and reaching a height of more than three hundred feet above the water. Some of its cliffs shoot up perpendicularly, and tower in pinnacles like half ruined gothic steeples. The island shows unmistakable evidence of the water having once been two hundred and fifty feet above its present line. It is a mooted question whether the lake has fallen from its original level, or the island has been lifted up. It is cavernous in places, and in these the ancient Indians were wont to place their dead. Portions of the beach are level and well adapted for landings.



THE DETROIT AND CLEVELAND STEAM NAVIGATION COMPANY'S NEW STEEL STEAMER CITY OF CLEVELAND.

The harbor at the south end is a little gem. In it, vessels can anchor and be sure of a holding, and around it the little old-fashioned French town nestles in primitive style, while above frowns the fort, its white walls gleaming in the sun. This village is a perfect curiosity in itself. Situated at the foot of the bluff, its two streets extend for a distance of a mile along the beach. The buildings are a ridiculous mixture of the modern and antique. Some were brought from Old Mackinaw when the town

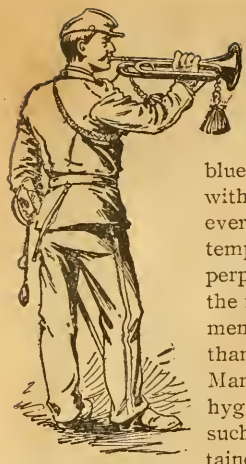
A STREET IN OLD MACKINAW.

and fort were removed from that point after the massacre of June 4, 1763. Many of the fences are of the original palisade style. The whole area of the island is one labyrinth of curious glens and valleys. Old fields appear in spots which were formerly cultivated by Indians. In some of them are circles of gathered stones, as if the Druids themselves had dwelt there. The island was formerly covered with a dense growth of rock maple, oak, iron wood, etc., and there are still parts of this ancient forest left, but all the southern limits exhibit a young growth. There are walks and winding paths of the most romantic character among its hills and precipices. From the eminences overlooking the lake can be seen magnificent views of almost illimitable extent, and as the observer gazes from the rocky battlements of the fort upon the surrounding waters, there steals upon him a sense of security which seems a complete bulwark against the host of Summer annoyances.

The late Dr. Drake says: "The island is the most important summer resort to which we can direct the attention of the infirm or the fashionable. As a health resort it is unsurpassed. Its cool, dry air and the living streams of pure water which gush from the lime rock precipices, are just what are needed to bring back the glow of health to the faded cheek, and send the warm currents of life dancing through the system, superseding all necessity for nauseating iron, sulphur and epsom salts,"

At watering places generally, all the features of the surrounding scenery are soon familiarized to the eye, which then merely wanders over the commingled throngs of coquettes, dandies, dancers and idlers, and soon returns to inspect the real or fancied infirmities of its possessor. A visit to Mackinac reverses all this. Its natural beauties and historic associations, together with the innumerable lesser attractions which cluster round about, serve to furnish visitors with so much entertainment and variety for either the robust or weakly ones, that ennui which eventually is felt at most resorts need not be experienced here. You eat with a new relish, and sleep like a child.

MACKINAC VILLAGE, AS SEEN FROM THE GUN PLATFORM OF THE FORT.



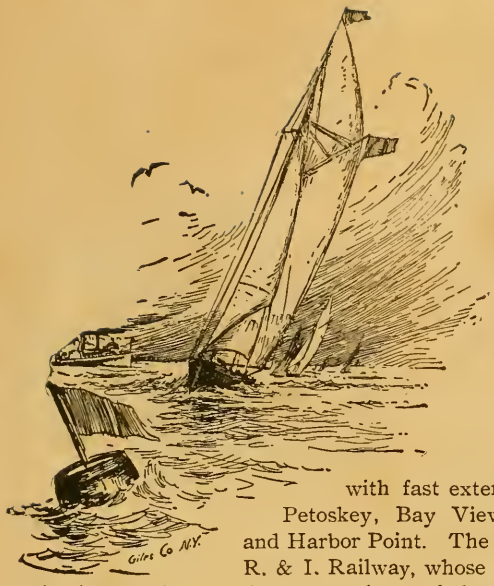
You row, or ramble, scarcely able to keep your buoyancy within bounds. Dr. Mills, once post surgeon at Mackinac, says: "No better place can be found for sickly girls and puny boys, for worn-out men and women. From the hour of entering Lake Huron, your feelings will indicate that you have passed beyond the reign of miasma, fever, dyspepsia, blue devils and duns, and you look back upon the whole of them with gay indifference, or a feeling of good-natured contempt, as every turn of the steamer's wheel carries you farther into the temperate and genial climate of the lakes, and away from your perplexities. Under these influences real diseases may abate, and the imaginary ones be forgotten, and this salutary mental excitement will not soon die away, for the historic associations, not less than the surrounding scenery, are well fitted to maintain it." Dr. Mann says: "A few whiffs of the air would make your lungs give a hygienic laugh. Children are crazy with animal spirits, and eat in such a way as to demonstrate the paradox that the quantity contained may be greater than the container." These extracts will no doubt meet with a hearty response from thousands who have visited Mackinac.

Dr. Hammond, the famous physician, says: "I have no hesitation is saying that it is the best summer resort of which I have any knowledge, for persons whose nervous systems are run down, or who desire to be built up and strengthened."

HOTEL ACCOMMODATION

IS a very satisfactory problem at Mackinac. There are innumerable hostelries of every grade of price and corresponding service. If the tourist wishes to study the ancient features of the island from their stronghold, he will put up at the John Jacob Astor House. This was originally the headquarters of the American Fur Company, and a glance at its low ceilings, scored by heavy timbers, its ancient fireplaces, its clumsy iron door locks, and its old storing vaults will satisfy any lover of antiquities, even before he has been invited by the genial proprietor to inspect the account books of four score years ago. The Mission House, at the extreme easterly point of the island, is another relic of ye olden time. Commanding one of the best views on the island, it is very popular with those loving quiet repose.

The place of all places for the fashionable resorters is Plank's Grand Hotel, situated on a commanding eminence at the western end of the island, and facing the straits. This hotel is the largest summer resort in the West, accommodating as it does upwards of 1,000 guests, and representing a capital of $300,000. Its rates are from $4.00 to $5.00 per day, and the season extends from July 1st to September 20th. This tremendous building is 650 feet in length and five stories in height. Its architecture is of the "Old Colonial" style, the distinctive feature being a colonnaded portico, 30 feet wide, upon which the windows of every floor open. The interior is well arranged and fully equal to every demand of the most fastidious taste. The lower floor is occupied exclusively by the dining-hall, drawing-room and private parlors, with the large rotunda office in the center. The dining-hall is a mammoth apartment, capable of seating 600 people. It occupies the space of two stories, the vaulted ceiling being 27 feet overhead. The guest rooms are large, light and airy. Each front suite is provided with a private balcony. The hotel is lighted by gas and electricity, heated by steam, and provided with elevator and electric call and fire alarm bells. It is also supplied with barber shop, bath-rooms, steam laundry and a first-class livery. A metropolitan orchestra is in constant attendance. The grounds have been made very attractive and a casino constructed for indoor sports. The hotel is under the management of Mr. J. O. Plank.



MACKINAC REGION.

ALL of Northern Michigan's many attractions are within easy reach of Mackinac Island. Indeed, so central is this spot, that the "Mackinac Region," as commonly spoken of, is supposed to include every attraction of the Great Lake Region of Upper Michigan. All methods of travel may be called into use, and all seem to start from a common center or hub, radiating as they do from this small island. Perhaps the most important of these secondary points is the Little Traverse Bay. Here, clustering within a mile or two of each other, and with fast extending suburbs almost touching, are Petoskey, Bay View, Wequetonsing, Harbor Springs and Harbor Point. The most expeditious route is via the G. R. & I. Railway, whose excellent train service renders communication possible at almost any hour of the day. The distance by this route is only thirty-five miles from Mackinac City, the nearest point to Mackinac, on the mainland. They may also be reached by either the day or night lines of steamers by way of Lake Michigan. By these lines the mileage is nearly doubled, and the better part of a day or night occupied in the journey. By far the prettiest route, however, is via the picturesque Inland Line of steamers through Mullet Lake and Indian River. The Michigan Central Railroad leading directly south, touches Topinabee and Indian River in an hour's ride from Mackinac. These points are also local to the Inland Route.

Charlevoix and Traverse City, on Grand Traverse Bay, are best reached by the steamers on Lake Michigan. They are about a days' ride from Mackinac.

A line of splendid steamers makes daily trips to Sault Ste. Marie, leaving Mackinac about nine in the morning, and passing all of the superb scenery of the St. Mary's River by daylight. At the Soo, connections are made with the through steamships running to the north and south shores of Lake Superior and to the Canadian ports situated on Georgian Bay.

In a water trip to Chicago or Milwaukee, there is considerable diversity of choice. The Lake Michigan and Lake Superior Transportation Co.'s steamers running without stops straight through the center of the lake, afford a quick trip and the novelty of being in mid-sea for twenty-four hours. The Northern Michigan steamers, coasting to all important points on the Lake Michigan east shore, and consequently taking up more time, afford the tourist a better opportunity to view the industries of the region. Coming back to the service more directly connected with the island, we may mention that nothing gives a more general idea of its wonders than a trip around its shores in one of the numerous steam yachts. These trips are on at all hours of the day. So, also, are the fishing excursions to Les Cheneaux, than which no more delightful way of spending one day may be contrived. The ferry steamers, and the constant movement of steamers of regular routes, afford excellent opportunities to visit the mainland either north or south at any hour of the day or night.

PETOSKEY is a charming resort situated on the side of a high bluff near the head of Little Traverse Bay. The town numbers 3,500 souls, and has a water front

of 1½ miles, to which a long pier gives considerable character and life. A lofty limestone cliff flanks it on the west. Among its trees may be seen the tents of many "campers," and further on the pretentious villas of wealthy residents. From the verge of this cliff the view is superb. Five miles distant is the ridge of hills that lines the opposite shore of Little Traverse Bay. These sweep in a symmetrical curve around this vast amphitheatre, and follow up the hither shore until they rise and terminate in high cliffs. The white line of pebbly beach which stands out so prominently against the green of the hills now takes an abrupt turn to the left, and forming a crescent two miles long, ends in a wooded point.

BAY VIEW COLLEGE.

No summer resort or watering-place on the continent can boast of purer air, fresher breezes or better hotels. Facilities for recreation are also good. Boating on the bay and short excursions by steamer or railroad may be indulged in at all times. Owing to the salubrious climate and central location, the Western Hay Fever Association makes its headquarters here

BAY VIEW, of Summer University fame, lies one mile further up the beach. Though but a few years have passed since the location of the grounds, this Assembly has become immensely popular in the East and South, ranking next to Chautauqua in size and completeness. The location is beautiful and no expense has been spared in improving its natural advantages. The land rises in natural terraces from the bay and affords cozy and picturesque sites for the four hundred cottages, of which glimpses may be caught through the trees. Clear cool water has been brought to these cottages through pipes from a never-failing spring further up the hill side.

HARBOR SPRINGS lies six miles further round the shore of Little Traverse Bay. It is located on a beautiful harbor (Wequetonsing) formed by the crescent of Harbor Point. Along the water's edge are large springs from which gush streams of water as clear as air and of a temperature only 12 to 15 degrees above freezing point. The history of the place is full of interest. Pieces of pottery show that it was once a stopping place for the ancient mound builders. It was for many years a central point for the payment of annuities, and for ages a favorite camp ground for the Indians. Many curious legends are extant. Strangers always visit the antiquated Catholic church, founded more than 200 years ago by Marquette.

THE HARBOR POINT RESORT, directly opposite, is singularly favored. The strip of rolling land on which it is situated is hardly more than a stone's throw in width, and while on the outer shore the heavy surf of Lake Michigan rolls grandly over a fine bathing beach, the children may with perfect safety paddle about the harbor within. Besides the large amusement hall and hotel which stands high above the beach on the breezy Lake Michigan side, the resort includes numerous cottages, which are provided for such of the guests as prefer the seclusion of their own roof.

CHARLEVOIX, 18 miles below Petoskey, on the Lake Michigan shore, is a most picturesque spot. The beautiful little town is situated at the mouth of a short strait, the outlet of Round and Pine Lakes. Further up, and just between the lakes, are the handsome grounds and residences of the Kalamazoo and Chicago Resorts, which occupy the north and south shores respectively.

THE INLAND ROUTE is undoubtedly the most interesting one between Mackinac and Petoskey. Nothing short of a water trip through the heart of Florida can compare to this wonderfully novel route by crooked rivers and lovely lakes, across the northern end of Michigan. Even with the former the comparison ends here, as the salubrious climate and the high forest grown shore are lacking. A little steamer leaves Mackinac at 7 o'clock, Cheboygan at 9 o'clock every morning, and after picking her way among logs and booms, past saw-mills and through the lock, steams up the crooked Cheboygan to Mullet Lake. The lake is 12 miles long by 5 wide, with a charming ruggedness of outline, caused by the thickly wooded hills which completely encircle it and form its shores. Topinabee, a favorite spot for campers, is situated at the further end, and here the passengers debark for dinner. After a short rest the little vessel resumes her journey, and worries through Indian River into Burt Lake, the lower end of which is crossed in reaching Crooked River. The latter stream is the shallowest and most crooked of the three, and although the steamer draws but thirty inches of water, it is only by a constant succession of twists and turns, scrapes and pushes and stops and backs that she gets through to Crooked Lake, where after a run of three miles, she ties up to the wharf at Oden, after an exciting and highly interesting day. A dummy starts immediately on the eight-mile run to Petoskey, where it arrives in season for supper. The little steamers Romeo and Juliet, which compose this line, are marine marvels. A vessel capable of carrying 150 passengers, which may safely and constantly make the trip through mid-lake from Mackinac to Cheboygan, yet at the same time is compact enough to wriggle through stretches of river that would seem impossible to crafts larger than a skiff, must be the handiwork of a genius. The twin screw system now in use on the most famous ocean flyers, has been employed in miniature to furnish the motive power. This enables the boat to turn in her own length, but even then, poles and ropes are in frequent demand, and the ingenuity and experience of the captain is taxed to the utmost.

MARQUETTE, the metropolis of Lake Superior country, is a very handsome city. Its business portion displays great activity and metropolitan tastes. Its residences, which are exceedingly beautiful, are placed high up on a bluff to the north, and command a view of the lake for 30 miles. While its central location makes it a capital base of operations for all the lovers of the rod and gun who visit these natural game preserves, it possesses no small attractions within itself. Speckled trout may be caught in the streams near by, while in the bay lake trout of twenty to thirty pounds in weight furnish exciting sport. The hotels are of the best, and everything necessary for hunting and fishing may easily be obtained.

THE TRIP TO THE SOO is worthy of note. The steamer after rounding Mackinac Island follows the northern shore of Lake Huron as far as Detour, at the entrance of the St. Mary's River, where the real interest begins. The river is 62 miles long, and is composed of a succession of beautiful straits and broad lakes. It is almost entirely shut in by high hills, which rise from the water's edge. In the many beauties and eccentricities of the stream and its outline, it is freely compared to the Hudson and other famous rivers. The channel is narrow, crooked and shallow, however, and must be passed by daylight. This is usually accomplished at dawn, this line being the only one which makes it at mid-day. The river is full of islands, and there are many popular hunting and fishing resorts along its course.

SAULT STE. MARIE, a city of 8,000 inhabitants, may be reached by rail or water. There is much of interest about the old place. It lies on the left bank of the river, just below the famous government ship canal, built for the purpose of passing the St. Mary's Rapids. The government works are exceedingly interesting. The immense and perfect structure of masonry, the water power which runs all the machinery necessary to operate the monster gates of the lock, and the dynamos which furnish the electric lighting, are perfect in all their details, and well display man's ingenuity.

LAKE ERIE DIVISION.

Steamers CITY OF CLEVELAND and CITY OF DETROIT (New)

DAILY LINE BETWEEN

CLEVELAND and DETROIT.

LEAVE CLEVELAND 10.00 P. M.—After the arrival of ALL trains. Passengers due in Cleveland via Bee Line at 9.45 p. m., or via Erie at 9.00 p. m., should notify Conductor of their wish to catch the steamer.

ARRIVE DETROIT 5.00 A. M.—Making connections with EARLIEST trains in every direction. By this route passengers may reach the Saginaw Velley at 10.55 a. m., Grand Rapids at noon, and other points at correspondingly early hours.

LEAVE DETROIT 11.00 P. M.—After the arrival of ALL trains. Passengers due in Detroit via Michigan Central Fast Train at 10.45 p. m., or via Detroit, Lansing & Northern at 10.20 p. m., should notify Conductor of their wish to catch the steamer. By this route passengers may leave Bay City, Saginaw, Grand Rapids, Niles, Kalamazoo, etc., after supper and reach Cleveland following morning.

(Standard Time.)

ARRIVE CLEVELAND 5.30 A. M.—Connecting with EARLIEST trains East, South and Southwest, and reaching Pittsburg or Columbus at noon.

CLEVELAND WHARVES, 23 River Street. DETROIT WHARVES, Foot of Wayne Street.

The Sunday Night Trips are operated only during June, July, August and September.
